Written Arguments ke liye Advocate Material + Vakil File (Master Reference File)

Forum: District Consumer Disputes Redressal Commission, Chandigarh (orders mein: "CHANDIGARH DISTRICT COMMISSION") | **Agli tarikh:** 22.12.2026 — oral arguments (EV-005)

Round 3 of 6 complete · Tarikh: 30.10.2026 · Version: VR-05 (pichhla: VR-03, Round 2)

STATUS: WORKING FILE — CHECKS NOT RUN

(Round 3 ki early delivery: poora File Integrity Gate Round 6 mein chalega. Is version par structure aur traceability ki compact jaanch chali hai — Part C, "Compact Integrity Result".)

> **Cover note (ek baar):** Yeh file enrolled advocate ke liye **working material** hai. Advocate har tathya aur kanoon khud verify karke hi court ke kagaz (Written Arguments) taiyar aur file karenge. Yeh court mein jama karne wala document nahi hai. Real medical expert ki rai abhi record par nahi hai.

Case ek nazar mein

Cheez	Record kya dikhata hai
Paksh (roles)	Complainants C1–C6 = Late Sh. Manohar (P) ke "legal heirs" (memo of parties, EV-010). Opposite Party (OP) = PGIMER, Chandigarh (ek OP; vakalatnama mein "& ANR" — X-14).
Proceeding	PR-01: Consumer Complaint DC/44/CC/423/2026, DCDRC Chandigarh — **forum ESTABLISHED** (orders 22.04.2026 se 14.10.2026, EV-001–EV-005). OP ne limitation aur territorial jurisdiction **khud maane** (WS paras 22–23, EV-070).
Stage	S6 Arguments: OP ka WS dated 26.06.2026, filing order 01.07.2026 mein (EV-071, EV-003); OP ka evidence band (07.08.2026); hamara rejoinder band (14.10.2026); OP ke Written Arguments file (14.10.2026); hamare Written Arguments ke liye 3 din (14.10.2026) — EV-004, EV-005.
Deadline Summary	**DL-05** hamare Written Arguments: 14.10.2026 + 3 din = 17.10.2026 (Sat; exclusion) / 16.10.2026 (inclusion) — **POSSIBLY EXPIRED**: filing record mein nahi — NOT VERIFIED. **DL-06** Hearing 22.12.2026 (oral arguments) — 53 din baaki (30.10.2026 se) — WATCH. **DL-08** CCTV/records preservation (12–13.03.2026) — koi preservation order padhe gaye orders mein nahi; OP ne WS mein CCTV par kuch nahi kaha — DANGER / POSSIBLY EXPIRED. Likhit preservation request bhi record par nahi: purane AI-kagaz 14.03.2026 ko MS office mein zubaani maang aur 16.03.2026 ko daak se shikayatein batate hain, par user ke 30.10.2026 ke bayan ke mutabiq koi kagaz kahin nahi gaya (X-38).
Complainants kya maangte hain	Rs. 60,00,000 compensation + 12% p.a. pendente lite interest; Rs. 2,50,000 medical expenses; Rs. 1,00,000 litigation expenses; duty doctors ki details; records + CCTV preservation, sealed cover (prayer i–vi, EV-023). Total principal claimed Rs. 63,50,000 (code se). Documents se OP ko bhugtan: Rs. 2,150 (Rs. 2,000 advance, EV-083 + Rs. 150, EV-043). Parivar ke purane AI-kagaz PGI par Rs. 6,388 ya Rs. 6,438 aur Sector-16 par Rs. 15,534 ya "lagbhag Rs. 3,000" kharch batate hain — bills court record mein nahi (X-36).
OP kya maangta hai	Complaint dismiss + "exemplary costs against the Complainants" (WS prayer, EV-071).
Ab tak kya padha	ZIP_1: D-01 complaint bundle (62/62), D-02–D-06 orders (7/7), D-07 e-Jagriti (1/1). ZIP_2: D-08 OP ka Written Statement + Annexures 1–12 (25/25 pages). ZIP_3: D-09 Case Brief (15/15), D-10 Director/MS letter (4/4), D-11 High Court writ draft (27/27) — parivar ke liye AI se bane kagaz, **kahin bheje ya file nahi hue** (user, 30.10.2026). ZIP_4–ZIP_6 **khole nahi gaye** (Round 4–6).
Court record (user, 30.10.2026)	Case mein ab tak sirf yeh 9 files gayi hain: NOOR AALM.pdf (D-01 complaint), reply.pdf (D-08 OP ka WS), document.pdf (D-07 e-Jagriti) aur document (1)–(6).pdf (orders D-02–D-06; document (5) = 07.08.2026 wale order ki doosri copy). Baaki har file AI se bani hai aur kahin file ya bheji nahi gayi — unse sirf points liye gaye, aur unka har tathya D-01–D-08 se milaakar hi is file mein aaya (Part C, C13).

Is file ko kaise padhein (legend)

1. **Source labels:** SROT-SAMARTHIT TATHYA (mool document padha, page diya) · SROT-SAAR (summary/kisi ka bayan, mool se nahi mila) · INFERENCE (hamara tark, aadhaar saath) · LEGAL PROPOSITION (kanoon ki baat, status saath) · UNRESOLVED (srot nahi ya do srot alag).
2. **VERIFIED / NOT VERIFIED:** is file mein **har kanoon aur citation NOT VERIFIED** hai — official sites is session mein khul nahi sakin (E-01).
3. **RECORD GAP** = padhe gaye pages mein us samay ki entries nahi mili (iska matlab "kaam nahi hua" nahi). **NOT READ** = page padha hi nahi.
4. **Page cite:** hamari complaint: "C-8, idx p.52 / PDF p.54" (Annexure C-8, index page 52, PDF page 54). OP ka WS: "WS p.5, para 8" (WS ka page aur para). OP ke annexures: "OP Ann-5 (D-08 p.17)". D-08 mein PDF page = haath ka page number.
5. **Har POINT ke 5 hisse:** 1 Hamari baat · 2 Virodhi ka jawab · 3 Hamara jawab · 4 Kanooni aadhar aur saboot · 5 Vakil ke liye antim dalil. EV-xxx = Evidence Register ki entry; CIT-xx = Citation Register (kanoon); C-1 se C-11 = hamare annexures; Ann-1 se Ann-12 = OP ke annexures.
6. **D-09, D-10, D-11** = Round 3 ke AI-kagaz (TIER-C lead; "D-09 p.6" = us PDF ka page; D-11 ke liye "para" bhi). Inka koi tathya record se mile bina "SIRF CLIENT KA BAYAN" hai.

Naam ki legend (sirf ek baar): P = Late Sh. Manohar (marij). C1 Noor Aalam (beta), C2 Muskan (beti), C3 Husan Bano (patni/widow), C4 Gulbahar, C5 Soni, C6 Jasmin (C4–C6 ka P se rishta memo mein nahi likha — Q-05). OP = PGIMER. GMSH-16 = Government Multi Specialty Hospital, Sector 16, Chandigarh. "Dr. A" = Junior Resident, Dept. of Internal Medicine, PGIMER (C-8 par stamp). OP ke doctor/staff sirf role se (Professor, Cardiology; Head, Transfusion Medicine; CCU duty doctor; on-duty SR). Aadhaar, mobile, UHID/CR number jaise identifiers is file mein nahi diye gaye (sirf aakhri 4 ank, jahan zaroori). OP ke blood register (Ann-7) par doosre marijon ke naam hain — unhe kahin dohraya nahi gaya. Round 3: "relative R1" = parivar ka ek rishtedaar jo raat hospital mein tha (naam nahi diya); "ward doctor" = ward ki mahila doctor (naam pata nahi).

CASE IMPACT — ROUND 3 (parivar ke shuruati kagaz: D-09, D-10, D-11)

Line	Kya hua (ID aur page ke saath)
READ	D-09 Case_Brief_For_Advocate.pdf (15/15 pages; "Prepared by Client: 17 March 2026"), D-10 Director/MS ko letter (4/4; 15.03.2026), D-11 High Court writ draft (27/27; March 2026) aur 00_READ_FIRST_Round3 — teeno text-layer PDF, poore padhe. User (30.10.2026): yeh AI se bane kagaz hain, kahin bheje ya file nahi hue; court record sirf D-01–D-08 hai. Isliye inka har tathya TIER-C lead hai aur D-01–D-08 se milaya gaya: MATCH / FARQ / SIRF CLIENT KA BAYAN / REJECTED (Part C, C13).
STRENGTHENS	**POINT 6**: raat ka bayan teeno kagazon aur complaint (paras 12–14) mein mool roop se ek jaisa hai — CCU doctor ne kaha file ward mein chali gayi; ward doctor ne CCU le jaane ko kaha; CCU doctor ne sirf pulse-oximeter dekha; kahin aur le jaane ki salah nahi di. OP khud ~9 pm ki CCU visit maanta hai (WS para 14, EV-059) aur us jaanch ko "pulse and oxygen saturation" batata hai (WS para 12, EV-058). Isliye "koi aaya hi nahin" wala khatra nahi; vivaad sirf is par ki jaanch kafi thi ya nahi, aur shikayat chest pain thi ya breathlessness. **POINT 2**: blood ke saare tathya — 12:55 crossmatch, ACC-0073148, bag 819538, B+, khaali Blood Reaction Form, Rs. 150 receipt 16:47 — C-10 se MATCH (EV-041–EV-043). **POINT 10**: AI-kagazon ki "PGI File Registration Rs. 2,000" = OP ka apna Ann-10 "Adv. Rs. 2000.00" (EV-083). Parivar ke paas PGI ki aur receipts hone ka dava (HbA1c Rs. 100, Apo A1/B Rs. 225/275) — lead (G-26). **Naye records ki maang**: 12.03.2026 raat ka duty roster aur call book (CCU aur ward) — CCU duty doctor aur ward doctor ki pehchaan (G-25); complaint ki prayer (iv) par OP chup hai (No Reply). **Naye expert sawal**: EQ-14 (intubation ke waqt mila "particulate matter" aspiration ka kaaran hai ya arrest/CPR ka nateeja; WS para 12 ki "no tachypnoea" se mel), EQ-15 (~9 pm par OP ke apne diagnosis "CAD – USA (Wellen's pattern)" ke hisaab se kaunsi jaanch apekshit thi).
WEAKENS / RISKS	**AI-kagaz kai galat baatein dohraate hain**: "CCU stay mein sirf 2 BP entries" (galat — C-9 Emergency chart hai, CCU chart Ann-5 alag hai, W-27); "1:53 AM" aur "do ghante ka gap" (galat — 12:51, X-02); "PGI Hb 8.2" (PGI ka 7.5 tha; 8.2 GMSH ka, X-31); "HEART FAILURE CONFIRMED" (record mein nahi, X-32); "Transfuse within 6 hours" (slip: "of issue", X-12); admission no. "..1304" (record "..1204", X-33). Sab Part C mein REJECTED ya FARQ likhe. **Naye tathya complaint (affidavit) se alag**: dukaan ka prakar (kapde vs chhatri/tirpal) aur dukaan Rs. 80,000 mein bechna (X-35); behno ki sthiti (X-05); C1 "poori raat maujood" vs "ghar chale gaye" (X-37); "3–4 chakkar" (complaint mein ginti nahi, X-34) — W-29. **Aarop**: AI-kagazon ke "false/fabricated certificate", "tampering", "conspiracy" aur BNS wale aarop saboot ke bina hain; inhe uthana OP ke exemplary costs wale prayer ko taakat dega (W-26, W-30). **Shikayatein**: kagaz kehte hain 16.03.2026 ko daak se saat jagah shikayat gayi aur receipts hain; user kehte hain kuch nahi gaya (X-38). Agar nahi gaya, to CCTV bachane ki koi likhit maang record par nahi (DL-08, W-31).
CLOSES / OPENS	**Closes:** NOT CONFIRMED LEADS 2 aur 3 (MS letter, CCTV request, HC writ draft — padhe: AI-made, bheje/file nahi hue); PR-02 NOT FILED (user); Q-16 ANSWERED; Q-14 ANSWERED IN PART; X-31 (Hb), X-32 (heart failure ka label), X-33 (admission no.) TIER-A record se tay. **Opens:** X-34–X-38; G-25, G-26; Q-34–Q-39; EQ-14, EQ-15; CIT-24–CIT-27; W-29–W-31; CR-01, CR-02.
CHANGES	POINT 1, 2, 3, 5, 6, 7, 9, 10, 12, 14 mein "Round 3" line jodi. KUL POINTS 14 hi rahe: AI-kagazon ka koi naya alag point record se nahi tika (unke saare mudde pehle ke POINTs mein aate hain). "Filing se pehle" mein 4 naye items. Part A mein koi naya tathya nahi — prompt ka niyam: bina milaye tathya court wale hisse mein nahi. Round 2 ke Audit Trail mein X-04 aur X-16 galti se OPEN likhe the (CR-02, theek kiya).
NEXT	Parivar se: Q-34 (16.03 ki daak — receipt?), Q-35 (14.03 MS office), Q-36 (dukaan), Q-37 (bills), Q-38 (CCU ke chakkar, ward doctor), Q-02 (raat ko kaun kab tha). Advocate se: Q-39 (complaint se bahar ke naye tathya), Q-31 (G-17–G-25 records ki application). Round 4: purani AI-audit files v2.0 aur v3.0 (ZIP_4).

CASE IMPACT — ROUND 2 (pichhla round: OP ka Written Statement + Annexures 1–12)

Line	Kya hua (ID aur page ke saath)
READ	D-08 reply.pdf: OP ka Written Statement (WS pp.1–12) + OP Annexures 1–12 (D-08 pp.13–25) — 25/25 pages READ (visual; haath ke charts native zoom par). Tier: TIER-A (OP ka apna filed record). WS dated aur verified 26.06.2026; court filing order 01.07.2026 mein (EV-071, EV-003).
STRENGTHENS	**POINT 1** (cardiac halat, duty): OP ka apna CCU proforma diagnosis "CAD – USA (Wellen's pattern)" aur "anaemia" likhta hai (EV-074, Ann-3); OP ne duty of care maani (WS p.10, 20-G) aur ACS ka ilaaj maana (WS p.8, para 17) — Documentary Support → Express Admission (ladder step 4). WS ka "merely suspected" (WS p.4, para 3) OP ke apne Ann-3 ke viparit (step 3). **POINT 2** (transfusion): OP ne maana ki blood "never released or issued" (WS p.5–6, para 8) — ab transfusion na hona client ka bayan nahi, OP ki Express Admission hai. OP ka apna plan "correct anaemia" (EV-074, Ann-3) aur apna Hb 7.5 g/dL (11.03.2026, EV-078, Ann-6) — WS ke "precautionary standby … no medical indication" ke viparit (step 3). **POINT 5** (CCU se bahar, trolley): OP ne maana ki P ko CCU se shift kiya, ward bed mein "temporary delay" thi, aur P "on the trolley" tha (WS paras 10, 11, 20-b) — ALLEGED → Express Admission (step 4). X-13 (maut ki jagah) suljha. **POINT 14 (naya)**: OP ka apna nursing note: P "Received in CCU at 12:15 … unresponsive & pulse was not palpable" (EV-077, Ann-5); aakhri vital entry 12/3 raat 9 pm — 3 h 15 min (code se) koi entry nahi. **POINT 10**: OP ke apne record mein "Adv. Rs. 2000.00 … 11-Mar-2026" (EV-083, Ann-10); WS ne consumer status par koi aapatti nahi uthayi (No Reply). **POINT 11**: limitation aur territorial jurisdiction OP ne "admitted" likha (WS p.11, paras 22–23).
WEAKENS	**POINT 3 jaisa complaint mein likha** ("no monitoring after 8:30 AM"): OP ka CCU vital chart (Ann-5) 11/3 subah 9:30 se 12/3 raat 9 pm tak entries dikhata hai; C-9 OP ke mutabiq Emergency ka chart hai (WS p.5, para 7). POINT 3 ko gaps aur values par dobara bana diya gaya (W-27). **Maut ka samay**: OP ka WS (para 18) aur nursing note (Ann-5) 12:51 AM kehte hain; hamari complaint ka "1:53 AM" padhna galat tha — "incorrectly records" aur "manipulation" wali baat chhod deni chahiye (W-23). **"No attendant came to collect"**: OP ke Transfusion Medicine ka letter (01.06.2026, Ann-7) kehta hai blood "kept ready for issue around 12 p.m. However, no attendant came to collect the same" — OP iska istemal karega (W-24, X-21). **Heart failure wali baat**: OP ka BNP 37.4 pg/mL (Ann-1, print par tarikh/naam nahi) aur echo "(N) LVEF" (Ann-2) — "severe cardiac distress"/heart failure wali framing kamzor; ACS/Wellens (OP ka apna Ann-3) par tikein (W-25). **Aspiration**: OP kehta hai intubation ke waqt trachea mein "particulate matter and fluids" mile (WS para 19) — record annexed nahi, par expert ke saamne yeh dalil aayegi. **Costs**: OP ne complainants par "exemplary costs" maange (W-26).
CLOSES / OPENS	**Closes:** X-02 (maut ka samay: 12:51 AM, OP ke TIER-A record se), X-13 (jagah: CCU ke bahar collapse, CCU mein ghoshit), X-15 (C-9 ki doosri entry 8:30 AM — OP ne khud "8:30 AM on 11.03.2026" likha), W-05, W-13 (C-9 OP ka Emergency chart), G-04 (WS padha). **Opens:** X-18 se X-30; G-17 se G-24 (OP ke records jo annex nahi hue); Q-26 se Q-33; EQ-8 se EQ-13.
CHANGES	DL-01 (45 din): WS par tarikh 26.06.2026, filing 01.07.2026 — WS late tabhi jab notice 11.05.2026 (WS-tarikh aadhar) / 16.05.2026 (filing aadhar) ya pehle mila ho (code; exclusion rule) — abhi bhi CONDITIONAL. Supported bhugtan Rs. 150 → Rs. 2,150 (RH-03). POINT 3 ka framing badla; naya POINT 14; KUL POINTS 13 → 14. STALE: VR-01 ke RECORD GAP intervals jo C-9 ki doosri entry se maut tak gine gaye the (Ann-5 ne gap bhar diya).
NEXT	Advocate Written Arguments mein OP ke apne Ann-3, Ann-5, Ann-6, Ann-7, Ann-10 aur WS ki admissions (paras 8, 10, 11, 14, 15, 17, 18, 20-G, 22, 23) par tikein; OP ke jo records annex nahi hue (G-17–G-24) unki maang; parivar se Q-26/Q-27 (blood collect karne ki baat) ka jawab.

FILING SE PEHLE KYA JAANCHNA BAAKI HAI (Round 3 ke baad)

1 (sabse pehla sawal, advocate ke liye): 14.10.2026 ke order ke mutabiq hamare (complainants ke) Written Arguments "within 3 days in registry" file hone the (EV-005) — yaani 16.10.2026 (inclusion rule) ya 17.10.2026 (Saturday; exclusion rule; agle working day ka niyam NOT VERIFIED). **Kya ye file hue? Record mein nahi hai.** Agar file nahi hue, to 22.12.2026 se pehle kya kadam (permission/application) uthana hai, yeh advocate tay karenge — procedure NOT VERIFIED. [____ to be filled: filing ki tarikh aur diary number]

2. **OP ke Written Arguments** (14.10.2026 ko "filed", EV-005) ki copy abhi bhi kisi zip mein nahi (G-02). WS ke baad unmein naye points ho sakte hain — registry se copy lein.
3. **45-din wala point:** OP ka WS 26.06.2026 ko dated/verified hai (EV-071) aur order 01.07.2026 mein "filed" likha hai (EV-003). Notice ki service report (G-03) ke bina yeh CONDITIONAL hai (POINT 13) — lead point na banayein.
4. **Rejoinder band hai** (14.10.2026). Isliye OP ke WS ka har material para Written Arguments mein jawab maangta hai — Part B, section 6 (para-wise jaanch) aur Part A, A6a dekhein. Asar NOT VERIFIED (CIT-18).
5. **OP ka evidence band hai** (07.08.2026). WS ke medical daave (Hb 7 ki seema "global guidelines", "PGIMER protocol", Medical Grievances Committee ki rai, intubation ki finding) kisi evidence affidavit ya document se samarthit nahi — asar NOT VERIFIED (POINT 4).
6. **Maut ka samay galat na likhein:** OP ke record ke mutabiq P 13.03.2026 ko 12:15 AM par CCU mein "unresponsive" laaye gaye aur 12:51 AM par mrit ghoshit hue (EV-077, EV-062). Complaint ka "death certificate ... 1:53 AM" wala dava hamari padhai ki galti thi (W-23). "Manipulation" ka aarop na uthayein.
7. **Maut ki jagah ab saaf hai:** OP khud maanta hai ki P CCU se shift hue, trolley par the, aur raat ~9 pm par ek baar CCU laaye gaye (WS paras 10, 11, 14); 12:15 par CCU mein "unresponsive" laaye gaye. C-11 ka "ward No. CCU" = jahan maut ghoshit hui. Parivar se Q-30 (trolley theek kahan thi) ka jawab lein.
8. **"No attendant came to collect":** OP ka letter (Ann-7, 01.06.2026) kehta hai blood "kept ready for issue around 12 p.m." par koi lene nahi aaya. Parivar ka jawab chahiye (Q-26, Q-27) — complaint para 15 kehti hai parivar raat ~9 pm blood bank gaya to woh band mila.
9. **"Complainant No.2" ka galat ullekh:** complaint paras 16, 18, 21 maa/patni ko "Complainant No.2" kehte hain; memo aur vakalatnama mein C2 = Muskan (beti), C3 = Husan Bano (patni) (X-01). OP ne is par kuch nahi kaha, par Written Arguments mein sahi number likhein.
10. **Raat ke tathyon ka affidavit** sirf C1 ka hai, jo ghar chala gaya tha (W-06). OP ke apne nursing note (Ann-5) aur WS paras 14, 18 ab raat ki kai baatein khud maante hain — un par tikein. Round 3: purane AI-kagaz C1 ko "poori raat maujood" kehte hain, par wahi kagaz yeh bhi kehte hain ki C1 "bhaagkar" CCU pahunche aur maa maut ke waqt saath thi (X-37) — Written Arguments mein complaint wala version hi rakhein.
11. **Autopsy:** C-11/Ann-9 par "NOT WILLING FOR AUTOPSY" aur C1 ke hastakshar (EV-044, EV-082) — W-04, Q-04.
12. **Heart failure ki baat na karein:** OP ka BNP 37.4 (Ann-1) aur echo "(N) LVEF" (Ann-2). Dalil ACS/Wellens + anaemia par rakhein (OP ka apna Ann-3) — W-25.
13. **Kanoon:** saari citations/provisions (CIT-01 se CIT-27) NOT VERIFIED (E-01). Round 3 ke AI-kagazon wale judgments (Parmanand Katara, Malay Kumar Ganguly, Martin F. D'Souza) aur doctors ke professional-conduct niyam bhi NOT VERIFIED (CIT-24–CIT-27). OP ne complaint ki teen judgments ko "settled law" maana (WS 20-H), par unka text phir bhi official source se padhna hoga.
14. **Legal heirs, rakam ke saboot, umar:** pehle jaisa (G-09–G-12; X-05, X-09). OP ka kehna: aay/dependency ka "documentary evidence" nahi (WS para 21). Round 3: AI-kagaz kehte hain dukaan chhatri/tirpal ki thi aur ilaaj ke liye Rs. 80,000 mein bech di gayi, jabki complaint "small clothing shop" kehti hai (X-35); behno ki sthiti bhi alag (X-05). Complaint se bahar ke naye tathya advocate ki raay ke bina Written Arguments mein na daalein (Q-39).
15. **OP ke records jo annex nahi hue** (G-17–G-24): Medical Grievances Committee ke "Para-wise Comments", ward/trolley vital chart, shifting/transfer note, resuscitation record, PGIMER protocols, counselling notes, echo/radiology reports, ECGs ki tarikh/time. Request → application ka kram (POINT 12).
16. **Prayer (iv) aur (v)** (duty doctors ki details; CCTV) par WS chup hai (No Reply) aur orders mein koi aadesh nahi (G-16).
17. **Part A filing text nahi hai.** Cause title, prayer clause, verification aur signature block advocate khud likhenge (skill rule 11) — [OMITTED — rule 11].
18. **Purane AI-kagaz (D-09–D-11) court record nahi hain.** User ke 30.10.2026 ke bayan ke mutabiq yeh kahin bheje ya file nahi hue. Inke tathya sirf tab use karein jab D-01–D-08 se milein (Part C, C13). Inke "false/fabricated certificate", "tampering", "conspiracy" aur BNS dharaon wale aarop Written Arguments mein na uthayein — saboot nahi, aur OP pehle hi exemplary costs maang raha hai (W-26, W-30).
19. **Parivar ke paas ke bills:** AI-kagazon ki suchi mein PGI ke HbA1c (Rs. 100) aur Apo A1/B (Rs. 225 ya 275) receipts, Amrit Pharmacy ke 3 bill (Rs. 3,895, code se) aur Sector-16 ke bill (Rs. 15,534 ya "lagbhag Rs. 3,000") hain; court record mein sirf Rs. 2,150 hai. Kya inhe is stage par record par laaya ja sakta hai, advocate tay karein (G-26, X-36).
20. **Duty roster aur call book** (12.03.2026 raat, CCU aur ward) — CCU duty doctor aur ward doctor ki pehchaan ke liye (G-25). Complaint ki prayer (iv) (doctors ki details) par OP chup hai (No Reply).
21. **14.03.2026 ki MS office visit aur 16.03.2026 ki daak:** AI-kagaz kehte hain zubaani CCTV maang hui aur daak se shikayatein gayi, receipts hain; user kehte hain koi kagaz nahi gaya (X-38). Asli receipt hai to batayein (Q-34, Q-35) — CCTV preservation (DL-08) ke liye zaroori.

PART A — WRITTEN ARGUMENTS KE LIYE ADVOCATE MATERIAL (English)

What this part is: material for the advocate's Written Arguments on behalf of the complainants — not a text for filing (skill rule 11). It gives the issues in the order a bench would take them, every fact with its document and page, the OP's written statement (WS) with its exact words and location, our answer, every legal point with its verification status, and what the Written Arguments must contain. EV-ids point to the Evidence Register (Part C). Unverified law is marked "(verify citation before filing)". Missing facts are "[____ to be filled]". Round 2 has added the OP's WS and Annexures 1–12 (D-08). Round 3 checked the family's early papers (D-09–D-11: AI-made, never filed or sent, as the user stated on 30.10.2026); no fact from them has been added to this Part unless it already stands on D-01–D-08 (Part C, C13).

A1. Heading details the advocate will need (information, not a cause title)

Item	As the record shows
Forum	District Consumer Disputes Redressal Commission, Chandigarh ("CHANDIGARH DISTRICT COMMISSION" in every order; EV-001–EV-005).
Case number	Consumer Complaint No. DC/44/CC/423/2026 (EV-001; e-Jagriti EV-006: filing date 2026-04-07). The OP's WS is titled "COMPLAINT CASE NO. 423 OF 2026" (EV-046).
Parties as registered	"NOOR AALM & 5 ORS" v. "POST GRADUATE INSTITUTE OF MEDICAL EDUCATION & RESEARCH" (orders). Spelling differs: "Noor Aalam" (memo, EV-010; WS, EV-046), "NOOR ALAM" (vakalatnama, EV-045) — X-17.
Document	Written Arguments on behalf of the complainants — time granted: "within 3 days in registry" from 14.10.2026 (EV-005). Filing status: [____ to be filled] (first item of "Filing se pehle").
Next date	22.12.2026 "for oral arguments of the parties" (EV-005; EV-006).

A2. Brief synopsis (material)

1. The complainants sue as legal heirs of the patient (P), who died at PGIMER on 13.03.2026 (C-11; EV-044; memo of parties EV-010).
2. Before PGIMER, P was treated at GMSH-16 from 04.02.2026 for sputum-positive pulmonary TB on ATT (since 07.02.2026), newly diagnosed type 2 diabetes, hyponatraemia and hypoalbuminaemia (C-1, C-2, C-4; EV-025, EV-026, EV-030).
3. On 10.03.2026 GMSH-16 recorded Hb 8.2 g/dL (EV-033) and at 00:14 on 11.03.2026 referred P "to PGI Emergency regarding his recent ECG findings [CAD ?ACS?] (Wellens)" (EV-032). The OP accepts that P "was appropriately referred to PGIMER in light of the ECG changes suggestive of Wellens Syndrome" (WS p.4, para 3; EV-052).
4. PGIMER recorded "Imp - Wellens Syndrome" in its emergency OPD (C-8; EV-037) and admitted P to "Cardio C C U" at 10:10:36 on 11.03.2026, taking an advance of Rs. 2,000 (OP Ann-10; EV-083). Its own CCU proforma records "retrosternal chest pain × 1 day (11pm on 10/3/26)", ECG rate 123 bpm with new-onset T changes in V2–V4 (OP Ann-2; EV-073), the diagnosis "CAD – USA (Wellen's pattern)" and "anaemia", and the plan "correct anaemia" (OP Ann-3; EV-074). Its own haemogram of 11.03.2026 records Hb 7.5 g/dL (OP Ann-6; EV-078).
5. The OP admits it owed P a duty of care and treated him for Acute Coronary Syndrome (WS p.10, para 20-G; WS p.8, para 17; EV-067, EV-061).
6. One unit of PRBC was requisitioned for P (received at the ACC blood storage centre at 09:15 on 12.03.2026), cross-matched and "kept ready for issue" (OP Ann-7; EV-079; C-10, EV-041). The OP admits the blood "was never released or issued from the Blood Bank" (WS p.5–6, para 8; EV-055) and that its CCU duty doctor told the family there was "no immediate medical urgency for blood transfusion" (WS p.8, para 15; EV-060).
7. The OP admits P was shifted out of the CCU, that there was a "temporary delay in the availability of a ward bed", and that P was kept "on the trolley" (WS paras 10, 11, 20-b; EV-056, EV-057, EV-065). It says P was brought back to the CCU "only once at around 9pm on 12.03.26" (WS p.7, para 14; EV-059).
8. The OP's own nursing record states P was "Received in CCU at 12:15", "unresponsive & pulse was not palpable", and was declared dead after CPR at 12:51 AM on 13.03.2026 (OP Ann-5; EV-077; WS p.8, para 18; EV-062). The last vital-sign entry before that is at 9 pm on 12.03.2026 (EV-076).
9. Relief claimed: Rs. 60,00,000 with 12% p.a. interest, Rs. 2,50,000 medical expenses, Rs. 1,00,000 litigation expenses, details of duty doctors, preservation of records and CCTV (EV-023). The OP seeks dismissal with exemplary costs (EV-071).

A3. Procedural history (from the orders; all orders are procedural, none is on the merits)

Date	Exact words of the order / document (shortest that carry the point)	Effect (read at its own words)	EV
07.04.2026	Complaint filed (e-Jagriti "Filing Date 2026-04-07"; index dated 07.04.2026; affidavit attested 07.04.2026).	Filing	EV-006, EV-007, EV-024
22.04.2026	"Complaint is admitted for hearing. Notice to the OP(s) be issued for 29.5.2026 with the directions to OP(s) to file written statement within 30 days from the date of receipt of notice extendable for 15 days (total 45 days)."	Admission; time for WS fixed by the order	EV-001
29.05.2026	"Vakalatnama on behalf of OP has been filed. Let written version, alongwith evidence, on behalf of OP be filed within the prescribed period. Put up on 1.7.2026."	OP appeared through counsel	EV-002
26.06.2026	OP's WS "Dated: 26.06.2026"; verification "Verified at Chandigarh on the 26th day of June, 2026" by the "Authorised Representative, PGIMER" (a Professor of Cardiology).	Date on the WS (not the filing date)	EV-071
01.07.2026	"Written version on behalf of OP filed. Copy be supplied. Evidence has not been filed. Be filed by the next date. To come up on 07.08.2026 for filing rejoinder."	WS on record; OP evidence pending	EV-003
07.08.2026	"Evidence by OP not filed despite being provided sufficient opportunity. Hence the opportunity to file eviden[ce] by OP No.1 is closed by order of this Commission." "Rejoinder on behalf of complainant not filed. Time prayed. Granted being last chance. ... within 7 days ..." "Written arguments on behalf of both the parties be filed within 2 weeks in the registry." "For oral arguments of the parties, listed for 14.10.2026."	OP evidence closed; last chance for rejoinder; WA for both	EV-004
14.10.2026	"Rejoinder on behalf of complainant not filed despite grant of sufficient opportunity ... opportunity to f[ile] rejoinder on behalf of complainant is closed by order of this Commission." "Written arguments on behalf of OP have been filed." "Written arguments by the complainant not filed. Time sought. Allowed. Same be filed within 3 days in registry." "To come up on 22.12.2026 for oral arguments of the parties."	Complainants' rejoinder closed; OP's WA on record; 3 days for complainants' WA	EV-005
22.10.2026	e-Jagriti: "Case Stage ADMIT", "Case Category POOR EMERGENCY CARE", "Next Hearing Date 2026-12-22".	Portal status (TIER-B)	EV-006

Words in [ ] are cut at the right margin in the original order PDFs (D-05, D-06). A procedural order is not an admission by the OP and not a finding on the merits (core rule 25); its legal effect is NOT VERIFIED (CIT-18).

A5. Issues for determination (proposed order)

Issue	Question	Element	POINTs (Part B)	Evidence sufficiency now
I-1	Are the complainants "consumers" and was the OP's service "service" for consideration?	Maintainability	POINT 10	Strong on facts: Rs. 2,000 advance + Rs. 150 (OP's records); no objection in WS. Law NOT VERIFIED.
I-2	Jurisdiction and limitation.	Maintainability	POINT 11	Strong: limitation and territorial jurisdiction expressly admitted (WS paras 22–23); pecuniary not objected.
I-3	What did the OP itself record about P's condition, and what duty did it accept?	Duty	POINT 1	Strong: OP's own Ann-2, Ann-3, C-8; duty and ACS treatment admitted.
I-4	Was the requisitioned and cross-matched blood withheld contrary to the OP's own plan?	Breach	POINT 2	Strong on documents (non-issue admitted; plan "correct anaemia"; Hb 7.5). Dispute on why it was not issued (X-21). Expert needed on indication.
I-5	Was it a deficiency to shift a CCU patient diagnosed with "CAD – USA (Wellen's pattern)" to a trolley for want of a ward bed?	Breach	POINT 5	Strong on facts (admitted); standard = expert.
I-6	Was P adequately observed, in the CCU and on the trolley, before he was found unresponsive at 12:15 AM?	Breach	POINT 3, POINT 14, POINT 6	Moderate–Strong: OP's own chart has 4–8 h gaps and no entry for 3 h 15 min before the arrest; values vs "stable throughout"; expert.
I-7	Did any deficiency cause or contribute to the death (causation, counterfactual)?	Causation	POINT 7, POINT 8, POINT 14	Weak–Moderate: sequence now documented; no expert opinion; no autopsy; co-morbidities.
I-8	Procedural: effect of the closure of the OP's evidence; unsupported medical assertions in the WS; 45 days (conditional); records not produced.	Procedural	POINT 4, POINT 12, POINT 13	Moderate; legal effects NOT VERIFIED; 45-day point CONDITIONAL.
I-9	What relief, and in what amount, is supported?	Damage	POINT 9	Harm documented; quantum largely unsupported (OP's para 21).

A6. Issue-wise material for the advocate

For each issue: facts with documents; the OP's words with WS location; our answer (from the record); law with status; red flags. These are argument lines for the advocate to use in their own words — not filing text.

I-1 Consumer status and consideration (POINT 10)

- **Facts:** "Adv. Rs. 2000.00 Receipt No. [..]/1 Date: 11-Mar-2026" on the OP's own inpatient record (OP Ann-10; EV-083); Rs. 150 by POS for cross-matching (C-10, idx p.58; EV-043); category "GENERAL" (EV-036, EV-043).
- **OP's WS:** no objection to consumer status, consideration or free service anywhere in PO-I to VII and paras 1–24 (WS pp.1–12 read; No Reply). Para 2 resists jurisdiction only on the ground that "a provable deficiency of service does not exist" (WS p.3, para 2; EV-051).
- **Our answer:** it can be submitted that the OP charged and collected consideration for the very admission and transfusion service in issue (EV-083, EV-043), and has not disputed consumer status. Effect of the absence of objection: NOT VERIFIED (CIT-20).
- **Law:** CPA 2019 ss.2(7), 2(42) (CIT-01, CIT-02); *V.P. Shantha* (CIT-09) (verify citation before filing).
- **Red flags:** do not call Rs. 2,50,000 "paid to PGIMER" without bills; GMSH-16 billing was "Ayushman Bharat" (relates to GMSH-16).

I-2 Jurisdiction and limitation (POINT 11)

- **OP's WS:** "The contents of Para 22 with regard to the date of the cause of action (13.03.2026) and the period of limitation are admitted." "The contents of Para 23 regarding territorial jurisdiction are admitted." (WS p.11, paras 22–23; EV-070). No pecuniary objection (No Reply).
- **Our answer:** admitted facts; the complaint was filed 25 days after the cause of action (computed).
- **Law:** CIT-03, CIT-04, CIT-08 (verify citation before filing).

I-3 Duty and the OP's own diagnosis (POINT 1)

- **Facts:** F-007, F-010, F-011, F-025, F-026, F-027, F-030 (EV-032, EV-036–EV-038, EV-073, EV-074, EV-081, EV-083).
- **OP's WS:** "the Complaint grossly exaggerates the severity of the patient's cardiac condition" (WS p.2, PO-III); "the ECG at GMSH-16 on 10.03.2026 showed only '?Wellens Syndrome' the '?' indicating that the diagnosis was merely suspected and not confirmed" (WS p.4, para 3); "The patient was appropriately referred to PGIMER in light of the ECG changes suggestive of Wellens Syndrome" (ibid.); "placed on guideline directed medical management for Acute Coronary Syndrome (ACS)" (WS p.8, para 17); "The Opposite Party owed a duty of care to the deceased" (WS p.10, para 20-G).
- **Our answer:** "OP's own CCU proforma records the diagnosis 'CAD – USA (Wellen's pattern)' and 'anaemia' (OP Ann-3), and its emergency note records 'Imp - Wellens Syndrome' (C-8, idx p.52)." It can be submitted that the WS's "merely suspected" is contrary to the OP's own Annexure 3 (record check: Contradiction, X-27).
- **Honest counterweight:** the OP's own tests show troponin negative, BNP 37.4 and normal LVEF (EV-072, EV-073; EV-037). Argue ACS/Wellens and anaemia, not heart failure (W-25).
- **Law:** CIT-10, CIT-11 (verify citation before filing).

I-4 Blood transfusion (POINT 2)

- **Facts:** F-008, F-027, F-028, F-030, F-031, F-016, F-032, F-017, F-035 (EV-033, EV-074, EV-078, EV-081, EV-079, EV-080, EV-041, EV-042, EV-043, EV-055, EV-060).
- **OP's WS:** "blood was arranged at PGIMER only as a precautionary standby measure ... to be used only in the event of emergency bleeding such as haemoptysis. The blood was never released from the Blood Bank. The patient's haemoglobin at PGIMER was above 7 g/dL ... No medical indication for routine transfusion existed." (WS p.2, PO-V); "admitted that a blood cross match procedure was completed by the Blood Bank on 12.03.2026"; "the blood was never released or issued from the Blood Bank in the first instance. The six hour window ... would only commence from the time of issue which never occurred." (WS pp.5–6, para 8); "The CCU Duty Doctor correctly conveyed that there was no immediate medical urgency for blood transfusion" (WS p.8, para 15).

- **Our answer:** (1) the OP's own CCU plan was "correct anaemia" (Ann-3) and its own Hb on 11.03.2026 was 7.5 g/dL (Ann-6), lower than the 8.2 the WS discusses (para 3) — Omission; (2) the OP's own Transfusion Medicine says the unit was "crossmatched and kept ready for issue" for the patient (Ann-7), not reserved for haemoptysis — Possible Inconsistency (X-28); (3) no transfusion order appears in the OP's drug chart (Ann-8); (4) the "Hb < 7" threshold "per established/global guidelines" is asserted without any guideline or evidence (Unsupported Assertion; OP's evidence closed, POINT 4). Whether transfusion was indicated in a patient being treated for ACS, and whether it would have changed the outcome, is for the expert (EQ-3).
- **Red flags:** the OP's letter "no attendant came to collect the same" (Ann-7; W-24; X-21) — answer from the record only: the letter is dated 01.06.2026 and was written on the Cardiology department's request of 29.05.2026; the OP's own case is that its doctor said there was no urgency (WS para 15); the slip says "Kindly bring Blood Transport Box from the ward at the time of issue" (EV-042). Family's account: Q-26, Q-27.
- **Law:** no verified benchmark (CIT-21: transfusion guideline, NOT VERIFIED).

I-5 Shifting a CCU patient to a trolley (POINT 5)

- **OP's WS:** "Any delay in ward bed availability is a well known systemic constraint at PGIMER ... and cannot constitute negligence per se." (WS p.6, para 10); "It is admitted that there was a temporary delay in the availability of a ward bed due to PGIMER's extremely heavy patient load"; "Even on the trolley, the patient continued to be under the monitoring and care of PGIMER's medical team, as conclusively evidenced by the vital chart maintained by the nursing staff." (WS pp.6–7, para 11); "shifted from CCU to the ward only after adequate monitoring and clinical assessment" (WS p.9, para 20-b).
- **Our answer:** the shifting and the trolley are admitted (Express Admission). The annexed vital chart (Ann-5) has no entry after 9 pm on 12.03.2026 until P was received unresponsive at 12:15 AM (EV-076, EV-077) — the WS's "conclusively evidenced by the vital chart" is not borne out by the chart annexed (Possible Inconsistency, X-24). No transfer or shifting assessment note is annexed (Omission). It can be submitted that a shortage of beds is the hospital's own arrangement and does not lessen its duty to a patient it had itself diagnosed with "CAD – USA (Wellen's pattern)" (CIT-22, NOT VERIFIED).
- **Expert:** EQ-4.

I-6 Observation before the arrest (POINT 3, POINT 14, POINT 6)

- **OP's WS:** "His vitals BP, pulse rate, and oxygen saturation were monitored constantly and recorded in the vital chart." (WS p.2, PO-VI); "The Annexure C-9 referred to by the Complainants is in fact the vital chart of the Emergency Department of PGIMER and not the CCU. In CCU, a new vital chart was made." (WS p.5, para 7); "hemodynamic stability throughout" (WS p.8, para 15; p.10, 20-E).
- **Our answer:** the OP's own CCU chart (Ann-5) has 11 entries over about 35 hours, with intervals of 4 h (9 pm → 1 am), 8 h (1 am → 9 am), 4 h and 6 h (computed), and records pulse 125–128 and BP 90/49, 87/46 and 90/60 (EV-076). Whether these values showed instability needing escalation is for the expert (EQ-8); the label is Possible Inconsistency (X-25), not a finding. The last entry is 9 pm on 12.03.2026; P was received in the CCU unresponsive at 12:15 AM (EV-077) — RECORD GAP of 3 h 15 min while P was on the trolley (POINT 14).
- **Correction to our own pleading:** complaint para 7 / ground A ("no monitoring after 8:30 AM") is contradicted by Ann-5 (W-27) — do not repeat it; argue the gaps and the values.

I-7 Causation and counterfactual (POINT 7, POINT 8, POINT 14)

- **OP's WS:** death "attributable entirely to the cumulative and progressive deterioration of these underlying conditions" (WS p.2, PO-IV); aspiration "is based on clinical findings observed during endotracheal intubation at the time of attempted resuscitation, where particulate matter and fluids were visually identified in the trachea" (WS pp.8–9, para 19).
- **Our answer:** the OP's own certificate lists "CORONARY ARTERY DISEASE" in the chain (EV-044); the OP's WS says "secondary to Aspiration" while the certificate says "ASPIRATION PNEUMONIA" (X-26); no resuscitation or intubation record is annexed (Unsupported Assertion). The arrest occurred before P reached the CCU at 12:15 AM (EV-077). Whether closer observation or the planned correction of anaemia could have changed the outcome is for the expert (EQ-3, EQ-6, EQ-13).
- **Red flags:** no autopsy (W-04); co-morbidities (W-08); C-6 vomiting (W-09).

I-8 Procedural points (POINT 4, POINT 12, POINT 13)

- **OP's evidence closed** (EV-002–EV-004). The WS's medical assertions rest on the WS alone, verified by the Professor of Cardiology as authorised representative (EV-071): the "Medical Grievances Committee" para-wise comments (PO-II) are not annexed; the "existing protocol at PGIMER" (paras 6, 10, 12) is not annexed; the guideline for "Hb < 7" is not annexed. Effect: NOT VERIFIED (CIT-18, CIT-23).
- **Records:** WS is silent on prayers (iv) and (v) (No Reply); records not annexed listed at G-17–G-24.
- **45 days (CONDITIONAL):** WS dated 26.06.2026 (EV-071), filing recorded 01.07.2026 (EV-003). Late only if notice was received on or before 11.05.2026 (WS-date basis, exclusion rule) or 16.05.2026 (filing-date basis, exclusion rule) — computed; date of receipt: [____ to be filled] (G-03). Law: CIT-06, CIT-07.

I-9 Relief and quantum (POINT 9)

- **OP's WS:** "The claim of Rs. 60,00,000/- (Rupees Sixty Lakhs) is wholly excessive, speculative, and unsupported by any documentary evidence of income or financial dependency." (WS p.11, para 21); "The sympathy and loss felt by the Complainants are acknowledged" (ibid.); prayer for "exemplary costs against the Complainants" (WS p.12).
- **Our answer:** the death and the heirs are documented (EV-044, EV-010); quantum needs documents (G-09–G-12). The WS does not answer prayers (ii) Rs. 2,50,000 and (iii) Rs. 1,00,000 specifically (No Reply). Supported payments to the OP: Rs. 2,150 (EV-083, EV-043).
- **Law:** CIT-12, CIT-13, CIT-14 (the OP "admitted as settled law" these three, WS 20-H; still verify), CIT-16.

A6a. OP's preliminary objections and the material for each answer

PO	OP's words (shortest) and WS location	Material for the answer	Record-check label
PO-I	"No deficiency in service ... received timely, appropriate, and guideline directed medical management at PGIMER from 11.03.2026 to 13.03.2026" (WS p.1)	OP's own records: plan "correct anaemia" not carried out (Ann-3, Ann-6, Ann-7, Ann-8); shifted to trolley (paras 10–11); no observation 9 pm → 12:15 AM (Ann-5). No guideline annexed.	Unsupported Assertion ("guideline directed")
PO-II	Complainants "deliberately suppressed and misrepresented material medical facts"; Department of Cardiology's "Para-wise Comments submitted to the Medical Grievances Committee ... conclusively demonstrated" conformity (WS p.1)	The committee's comments are not annexed (G-17); they are the treating department's own view (not independent); no expert affidavit (evidence closed).	Unsupported Assertion
PO-III	"grossly exaggerates the severity"; NT-proBNP "recorded at GMSH-16"; "repeat BNP ... only 37.4 pg/mL"; normal LVEF (WS p.2)	OP's own Ann-3 "CAD – USA (Wellen's pattern)" (X-27); NT-proBNP report is from a private lab (X-29); BNP print (Ann-1) carries no name or date and shows MYO 176 and D-dimer 3280 flagged abnormal (Omission); BNP and NT-proBNP are different tests (EQ-10).	Contradiction / Omission / Possible Inconsistency

PO	OP's words (shortest) and WS location	Material for the answer	Record-check label
PO-IV	co-morbidities incl. "co-existing Coronary Artery Disease (CAD)"; "The patient's relatives were repeatedly informed of his very poor overall prognosis" (WS p.2)	CAD admitted (helps POINT 1, 7). No counselling note annexed (G-22).	Express Admission (CAD) / Unsupported Assertion (counselling)
PO-V	blood "only as a precautionary standby measure ... never released"; "No medical indication for routine transfusion existed" (WS p.2)	Ann-3 "correct anaemia"; Ann-6 Hb 7.5; Ann-7 "kept ready for issue"; no guideline annexed.	Contradiction (indication) / Express Admission (never released)
PO-VI	"admitted to the CCU ... at 10:10 AM on 11.03.2026 ... observed and monitored for nearly 31 hours ... monitored constantly ... ECG was repeated ... showed NO ST elevations" (WS p.2)	Ann-10 confirms 10:10:36; Ann-5 shows 4–8 h gaps (X-25); Ann-11/12 ECGs carry no legible date, time or name (EQ-9); "31 hours" puts the shifting at about 17:10 on 12.03.2026 (computed).	Consistent Record (time) / Possible Inconsistency (constantly)
PO-VII	Rs. 60,00,000 "emphatically denied ... arbitrary, baseless, excessive" (WS p.3)	Claim ledger (Part C, C12); OP does not address prayers (ii)–(v).	Express Denial

A7. What the Written Arguments must contain (checklist for the advocate)

1. Brief synopsis and procedural history (A2, A3) with the exact words of the orders and the WS date.
2. Facts in date order, each with its document and page (A4) — separating what the OP admits from what only the complainants say.
3. Issues I-1 to I-9 with the material above, and a para-wise answer to the OP's WS (A6a; Part B section 6), since the rejoinder opportunity is closed.
4. The OP's own admissions and records first (Ann-3, Ann-5, Ann-6, Ann-7, Ann-10; WS paras 8, 10, 11, 14, 15, 17, 18, 20-G, 22, 23).
5. Corrections the advocate should make openly: time of death (12:51 AM, not "1:53 AM"); "Complainant No.2"; "no monitoring after 8:30 AM"; heart-failure language (W-23, W-07, W-27, W-25).
6. Our weak points answered honestly (Part B, section 5).
7. Relief tied to the Damages Ledger (Part C) — claimed separate from supported. Answer to the OP's prayer for exemplary costs.
8. List of documents relied upon (A8), including the OP's own annexures.
9. [OMITTED — skill rule 11: the cause title, prayer clause, verification and the place/date/signature block are prepared by the advocate.] Answers to the OP's Written Arguments of 14.10.2026: [___ to be filled after reading them, G-02].

PART B — MASTER REFERENCE FILE (VAKIL FILE) — Hinglish

STATUS: WORKING FILE — CHECKS NOT RUN | VR-05 (Round 3 of 6)

> **KUL POINTS KI SANKHYA:** Is file mein kul 14 alag-alag kanooni aur medical points hain.
>
> **FILE KA MAQSAD:** Yeh Master Reference File isliye banayi gayi hai taaki hamare Vakil Sahab isme diye gaye saboot, virodhi ke daavon aur record ke beech ke virodhabhas (contradictions) aur kanooni points padh kar apne hisaab se Court File / Written Arguments khud taiyar kar sakein. Saath hi koi aam vyakti bhi ise padh kar samajh sake ki vivaad kya hai, virodhi ne kya kaha aur hamara jawab kya hai.

Round 3 mein parivar ke purane AI-kagaz (D-09–D-11) padhe gaye; unke tathya record se milaakar hi jode gaye (Part C, C13), aur koi naya alag POINT nahi tika. Round 2 mein OP (PGIMER) ka Written Statement aur uske Annexures 1–12 padhe gaye. Har POINT ka "Virodhi ka jawab" ab mool WS ke shabdon aur WS Location ke saath bhara gaya hai. Ek naya POINT 14 juda (raat 9 pm se 12:15 tak koi entry nahi; P CCU mein "unresponsive" laaye gaye). Saare findings **PROVISIONAL UNTIL PART 4** hain (red-team/disconfirmation Round 6 tak poora hoga).

Case ek nazar mein, Deadline Summary aur legend: Cover page; Round 2 aur Round 3 ka asar: CASE IMPACT pages (dohraya nahi gaya).

JEETNE WALE BADE POINTS (taakat ke kram mein — Round 3 ke baad; kram Round 2 jaisa)

Rank	POINT	Ek line mein	Element	Taakat (kaaran)	Sabse majboot saboot	Virodhi ka jawab (WS) / sambhavit	Kya aur majboot karega
1	POINT 1	OP ke apne CCU record mein "CAD – USA (Wellen's pattern)" aur "anaemia"; OP ne duty of care aur ACS ka ilaaj maana	Duty	Strong: OP ka TIER-A record + Express Admission	EV-074 (Ann-3); EV-067 (WS 20-G); EV-061 (WS 17)	"merely suspected", "grossly exaggerates" (WS p.4 para 3; p.2 PO-III)	Cardiologist (EQ-1, EQ-9)
2	POINT 2	Blood requisition (09:15), crossmatch, "kept ready for issue"; OP ka plan "correct anaemia", Hb 7.5; OP maanta hai blood "never released or issued"	Breach	Strong (documents) / Moderate (kyun nahi diya — X-21)	EV-055 (WS 8); EV-074; EV-078; EV-079	"precautionary standby ... haemoptysis"; "Hb above 7"; "no attendant came to collect" (Ann-7)	Q-26/Q-27; EQ-3; OP ka transfusion order/register
3	POINT 5	OP maanta hai: CCU se shift kiya, ward bed nahi mila, P trolley par rahe	Breach	Strong: Express Admission; standard = expert	EV-056, EV-057, EV-065 (WS 10, 11, 20-b)	"systemic constraint ... cannot constitute negligence per se" (WS 10)	EQ-4; shifting note (G-19)

POINT ka number us mudde ki pehchaan hai; rank taakat ka kram hai. Sab POINT 1–14 neeche paanch hisson mein hain. Jahan WS ne jawab diya, uske mool shabd WS Location ke saath hain; "forecast" = hamara anumaan, OP ke shabd nahi.

POINT 1: OP ke apne record mein Wellens / "CAD – USA" aur CCU ka faisla; OP ne duty of care aur ACS ka ilaaj maana

ELEMENT TAG: Duty (Breach ke liye decision context) | **Taakat:** Strong — OP ka apna TIER-A record + Express Admission; kanoon NOT VERIFIED

1. HAMARI BAAT / AAROP: GMSH-16 ne 11.03.2026 ko 00:14 par refer kiya: "We are referring our patient to PGI Emergency regarding his recent ECG findings [CAD ?ACS?] (Wellens)" (C-6, idx p.46; EV-032). PGIMER ke emergency note mein: "BP - 130/100 mm Hg", "PR - 116/min", "SpO2 - 94% RA", "CBC - 8.2/13k/336k", "BNP - 1117.48 (24/2)", "ECG → Wellens", "Imp - Wellens Syndrome"; plan "Shift to CCU (ACC)" (C-8, idx pp.52–53; EV-037, EV-038) — SROT-SAMARTHIT TATHYA. CCU mein admission 11.03.2026 10:10:36, "Ward: Cardio C C U" (OP Ann-10, D-08 p.23; EV-083). OP ke CCU proforma mein: "retrosternal chest pain × 1 day (11pm on 10/3/26)", ECG "Rate: 123 bpm", T changes "V2 – V4 (new onset)" (OP Ann-2, D-08 p.14; EV-073) aur diagnosis "CAD – USA (Wellen's pattern)", "anaemia" (OP Ann-3, D-08 p.15; EV-074) — SROT-SAMARTHIT TATHYA. ("USA" yahan unstable angina ka chhota roop maana ja raha hai — INFERENCE; cardiologist confirm kare.)

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]** **[WS Location: WS p.2 PO-III, PO-IV; p.4 para 3; p.8 para 17; p.10 para 20-G — poore para padhe]**: "the Complaint grossly exaggerates the severity of the patient's cardiac condition" (PO-III); "co-existing Coronary Artery Disease (CAD)" (PO-IV); "the ECG at GMSH-16 on 10.03.2026 showed only '?Wellens Syndrome' the '?' indicating that the diagnosis was merely suspected and not confirmed"; "The patient was appropriately referred to PGIMER in light of the ECG changes suggestive of Wellens Syndrome." (para 3); "The patient was placed on guideline directed medical management for Acute Coronary Syndrome (ACS)" (para 17); "The Opposite Party owed a duty of care to the deceased and discharged that duty at every stage" (para 20-G).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — duty aur ACS ilaaj RECORD SE SAMARTHIT; "merely suspected" RECORD KE VIPARIT.
- Express Admission: duty of care (WS 20-G; EV-067); ACS ka ilaaj (WS 17; EV-061); CAD "co-existing" (PO-IV; EV-048); referral "ECG changes suggestive of Wellens Syndrome" ke liye (WS 3; EV-052).
- Express Denial: severity "grossly exaggerates" (PO-III; EV-047); "critical" ya "decompensated heart failure" kehna "a clinical falsehood" (WS p.5, para 6; EV-053).
- No Reply: LAGU NAHI — is point par WS ne jawab diya.
- Hamare record ka samarthan: EV-032, EV-036–EV-038 (C-6, C-8); OP ke apne EV-073, EV-074, EV-081 (Ann-2, Ann-3, Ann-8).
- Virodhabhas: X-27 — WS para 3 ka "merely suspected and not confirmed" OP ke apne Ann-3 ("CAD – USA (Wellen's pattern)", bina "?") aur C-8 ("Imp - Wellens Syndrome") ke viparit — Contradiction (ladder step 3). X-10 — treatment sheet par "Date 10/3/26" (Possible Inconsistency; maasoom galti sambhav).
- Imaandari se: OP ke apne tests mein Trop T/TNI negative (EV-037, EV-072), BNP 37.4 (EV-072) aur echo "(N) LVEF" (EV-073) — heart failure ki baat kamzor; ACS/Wellens par tikein (W-25).
- Round 3 (AI-kagaz D-09 pp.3–4, D-11 paras 5, 9): "BNP 1117.48 — HEART FAILURE CONFIRMED" aur "10x" record mein nahi — C-4 mein cardiac diagnosis nahi (X-07), 9.76× (X-08), OP ka normal LVEF (Ann-2); heart failure ki baat na karein (X-32, W-25). AI-kagazon ka medical point — Wellens pattern ko critical proximal LAD stenosis aur heart attack ke bade khatre se joda jaata hai — expert confirm kare to yeh point aur mazboot hoga (EQ-15; NOT VERIFIED). "PGI Investigation Summary 11/03" (Albumin 1.74, Na 127, AST 93) court record mein nahi (G-26).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-032, EV-036–EV-039, EV-073, EV-074, EV-081, EV-083; OP ki admissions EV-048, EV-052, EV-061, EV-067. Kanoon: duty of care aur standard — CIT-10 (*Jacob Mathew*, 2005), CIT-11 (*Kusum Sharma*, 2010) — LEGAL PROPOSITION, NOT VERIFIED (citation to be confirmed by counsel); "service" — CIT-02 NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "OP's own CCU proforma records the diagnosis 'CAD – USA (Wellen's pattern)' and 'anaemia' (EV-074; OP Ann-3), its emergency note records 'Imp - Wellens Syndrome' (EV-037; C-8, idx p.52), and the OP admits that it owed the patient a duty of care and treated him for Acute Coronary Syndrome (WS p.10, para 20-G; WS p.8, para 17)." Yeh dalil di ja sakti hai ki OP ka "merely suspected" (WS para 3) uske apne Annexure 3 ke viparit hai (ladder step 3), aur 11.03.2026 se hi OP ne P ki cardiac halat jaan kar CCU-level care ka zimma liya tha. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (RECORD-SUPPORTED) "Troponin negative, BNP 37.4, LVEF normal — heart failure nahi tha." → hum heart failure nahi keh rahe; OP ne khud "CAD – USA (Wellen's pattern)" likha aur ACS ka ilaaj kiya; standard ka sawal expert se (EQ-1, EQ-7, EQ-9). | **RELIEF + SEEMA:** duty aur OP ki jaankari ka nishkarsh; akele yeh point breach ya causation saabit nahi karta.

POINT 2: Blood transfusion — OP ka apna plan "correct anaemia", Hb 7.5; blood requisition, crossmatch, "kept ready for issue" — par OP maanta hai blood "never released or issued"

ELEMENT TAG: Breach (Causation ka sawal expert ko) | **Taakat:** Strong (documents aur admission) / Moderate (blood kyun nahi diya — X-21; zaroorat ka sawal expert ka)

1. HAMARI BAAT / AAROP: Hb 8.2 g/dL (GMSH-16, 10.03.2026 13:07; C-7, idx p.47; EV-033). PGIMER ka apna haemogram (requisition date 11/03/2026): "Haemoglobin, Hb (gm/dL) 7.5" (OP Ann-6, D-08 p.18; EV-078). OP ke CCU proforma ka plan: "correct anaemia" (OP Ann-3; EV-074; 3× zoom par MODERATE confidence). OP ke Transfusion Medicine ka letter (01.06.2026): requisition "received in the Blood Storage Centre, ACC on 12th March, 2026 at 9.15 a.m. vide DTM No. ACC-0073148. Subsequently one unit of PRBC was crossmatched and kept ready for issue around 12 p.m. However, no attendant came to collect the same for the patient." (OP Ann-7, D-08 p.19; EV-079); register mein issue ke saare khaane khaali (D-08 p.20; EV-080). Crossmatch 12:55, "Ward Cardio CCU / Trolly 66", transfusion ke fields khaali (C-10, idx p.56; EV-041); slip: "Kindly ensure transfusion of blood units within six hours of issue ... Kindly bring Blood Transport Box from the ward at the time of issue of blood." (C-10, idx p.57; EV-042); Rs. 150 POS 16:47:39 (EV-043). OP ke drug chart mein koi blood/transfusion order nahi (OP Ann-8; EV-081) — NOT RECORDED IN THE PAGES READ. Complaint paras 15–16 (EV-018): ACC blood bank raat ~9 PM band mila; Nehru Hospital blood bank ne naya crossmatch maanga; CCU doctor: "no urgency" — CLIENT-REPORTED.

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]** **[WS Location: WS p.2 PO-V; pp.5–6 para 8; p.8 para 15; p.10 para 20-D — poore para padhe]**: "blood was arranged at PGIMER only as a precautionary standby measure ... to be used only in the event of emergency bleeding such as haemoptysis. The blood was never released from the Blood Bank. The patient's haemoglobin at PGIMER was above 7 g/dL, which is the established clinical threshold below which transfusion is indicated. No medical indication for routine transfusion existed." (PO-V); "It is admitted that a blood cross match procedure was completed by the Blood Bank on 12.03.2026"; "Critically, the blood was never released or issued from the Blood Bank in the first instance. The six hour window specified in the Blood Reaction Form would only commence from the time of issue which never occurred." (para 8); "The CCU Duty Doctor correctly conveyed that there was no immediate medical urgency for blood transfusion" (para 15).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — "never released" RECORD SE SAMARTHIT (register khaali); "no medical indication" aur "solely ... standby" RECORD KE VIPARIT / JAANCH AVASHYAK.
- Express Admission: crossmatch 12.03.2026 ko hua (WS 8; EV-055); blood kabhi issue nahi hua (PO-V, WS 8, WS 15, 20-D; EV-049, EV-055, EV-060, EV-066); CCU duty doctor ne parivar ko "no immediate medical urgency" kaha (WS 15; EV-060).
- Express Denial: blood "procured" by complainant at doctors' advice (WS 8); "false assurance" (20-E).
- No Reply: OP ka apna Hb 7.5 (Ann-6) WS para 3 mein nahi aata — WS sirf GMSH ka 8.2 discuss karta hai (Omission).
- Hamare record ka samarthan: EV-074 (plan "correct anaemia"), EV-078 (Hb 7.5), EV-079 ("kept ready for issue"), EV-080, EV-041, EV-042, EV-043, EV-081.
- Virodhabhas: X-28 — "No medical indication for routine transfusion" (PO-V) vs OP ka apna plan "correct anaemia" (Ann-3) — Contradiction (step 3; maasoom vyakhya: anaemia ko doosre tareeke se theek karna — Ambiguity, expert); "standby for haemoptysis" vs Ann-7 "kept ready for issue ... for the patient" — Possible Inconsistency. "Hb < 7 ... per established/global guidelines" (paras 3, 8, 15, 20-D) — koi guideline annex nahi: Unsupported Assertion. X-12 (slip "six hours" vs form "two hours"); X-20 ("around 12 p.m." vs crossmatch 12:55).
- OP ka bada counter (hamari kamzori, W-24): "no attendant came to collect the same" (Ann-7) — parivar ke bayan (para 15) se alag: X-21 UNRESOLVED. Dhyan dein: yeh letter 01.06.2026 ka hai, Cardiology ke 29.05.2026 ke letter par likha gaya (baad mein, defence ke liye) — contemporaneous clinical record nahi.
- Round 3 (AI-kagaz D-09 p.6, D-10 p.2, D-11 paras 14–15): crossmatch 12:55, ACC-0073148, bag 819538, B+, khaali Blood Reaction Form, Rs. 150 receipt — sab C-10 se MATCH. Par "Transfuse within 6 hours — NOT DONE" wala tark na lein: slip ke shabd "within six hours of issue" hain (D-11 para 14 bhi yahi quote karta hai) aur blood issue hi nahi hua (X-12). AI-kagaz "no attendant came" (Ann-7) ka koi jawab nahi dete — Q-26, Q-27 abhi khule.

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-033, EV-074, EV-078, EV-079, EV-080, EV-041, EV-042, EV-043, EV-081; OP ki admissions EV-049, EV-055, EV-060. Standard (ACS ke marij mein Hb 7.5 par transfusion ki zaroorat aur urgency): "no verified benchmark for this date" → EQ-3; transfusion guideline CIT-21 NOT VERIFIED. Deficiency — CIT-02 NOT VERIFIED. System printouts — CIT-17 NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "PGIMER's own CCU plan records 'correct anaemia' (EV-074; OP Ann-3) and its own haemogram of 11.03.2026 records Hb 7.5 g/dL (EV-078; OP Ann-6). One unit of PRBC was requisitioned (received at 09:15 on 12.03.2026), cross-matched and 'kept ready for issue' (EV-079; OP Ann-7), yet the OP admits that the blood 'was never released or issued' (WS pp.5–6, para 8). No transfusion order appears in the OP's drug chart (EV-081; OP Ann-8)." Yeh dalil di ja sakti hai ki OP ka "precautionary standby ... no medical indication" uske apne "correct anaemia" plan se mel nahi khaata (ladder step 3), aur transfusion na hone ka faisla OP ke apne CCU doctor ka tha ("no immediate medical urgency", WS para 15). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (RECORD-SUPPORTED) "Hb 7.5 seema se upar tha; blood taiyar tha; parivar lene nahi aaya." → (1) issue ke liye ward ko request bhejni hoti hai (slip: "from the ward at the time of issue"); (2) OP ke apne doctor ne kaha urgency nahi — to parivar ka na jaana OP ki salah ke mutabiq tha; (3) "no attendant came" baad ka letter hai, issue request ka koi record nahi; (4) zaroorat par expert (EQ-3). | **RELIEF + SEEMA:** deficiency in service ka nishkarsh (RH-01 se juda); causation expert ke bina nahi.

POINT 3: Monitoring — OP ke apne CCU chart mein 4–8 ghante ke gap aur pulse 125–128, BP 90/49, 87/46, 90/60; WS kehta hai "monitored constantly", "stable throughout"

ELEMENT TAG: Breach | **Taakat:** Moderate — OP ka apna chart; values ka arth aur monitor logs ka sawal expert/record ka (Round 1 ka "8:30 ke baad koi monitoring nahi" ab is roop mein nahi rehta — W-27)

1. HAMARI BAAT / AAROP: Emergency B.P. chart (C-9, idx p.55; EV-040): "11/3, 5 Am, 110/70, 80" aur 8:30 AM "120/88, 80" — OP ise "the vital chart of the Emergency Department of PGIMER" maanta hai (WS p.5, para 7; EV-054). OP ka CCU "NURSING SERVICE" vital chart (OP Ann-5, D-08 p.17; EV-076) — entries (date | time | BP | pulse): 11/3: 9:30 AM 113/73, 128; 10:30 "—"; 12 pm 11?/79, 125 (temp 100°F, "Tab PCM given"); 3 [pm] 124/103 [LOW], 126; 6 pm 90/49, 106; 9 pm 130/79, 110. 12/3: 1 am 110/74, 100; 9 AM 87/46, "45" [LOW: 45 ya 95]; 1 pm 110/73, 82; 3 p[m] 9?/60, 114; 9 pm 90/60, 82 — AS RECORDED (haath ki likhai; native zoom). Gaps (code se): 9 pm (11/3) → 1 am = 4 h 00 min; 1 am → 9 am = 8 h 00 min; 9 am → 1 pm = 4 h; 3 pm → 9 pm = 6 h. OP ki treatment sheet: "I/O, vitals, RBS" (EV-039); drug chart: "vitals q [?]" (EV-081).

2. VIRODHI (PGIMER) KA JAWAB [WS-MOOL-TEXT]

[WS Location: WS p.2 PO-VI; p.5 para 7; p.8 para 15; p.9 para 20-a; p.10 para 20-E — poore para padhe]: "His vitals BP, pulse rate, and oxygen saturation were monitored constantly and recorded in the vital chart." (PO-VI); "The Annexure C-9 referred to by the Complainants is in fact the vital chart of the Emergency Department of PGIMER and not the CCU. In CCU, a new vital chart was made. The vital chart of the CCU as well as the Ward at PGIMER was duly maintained throughout the patient's admission"; "The allegation that 'no monitoring was conducted after 8:30 AM on 11.03.2026, is factually false" (para 7); "his hemodynamic stability throughout" (para 15); "The vital chart conclusively establishes hemodynamic stability throughout the admission." (20-E).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — "8:30 ke baad bhi entries" RECORD SE SAMARTHIT (Ann-5); "constantly" aur "stable throughout" JAANCH AVASHYAK.
- Express Admission: C-9 OP ka apna Emergency chart hai aur doosri entry "8:30 AM on 11.03.2026" (WS 7; EV-054) — X-15 aur W-13 suljhe.
- Express Denial: "no monitoring after 8:30 AM" (WS 7).
- No Reply / Omission: WS kehta hai ward ka vital chart bhi "duly maintained" (WS 7), par sirf CCU chart annex hai — ward/trolley chart nahi (G-18).
- Hamare record ka samarthan: EV-076 (OP ka apna chart), EV-039, EV-081.
- Virodhabhas: X-25 — "stable throughout" vs chart ke values (BP 90/49, 87/46, 90/60; pulse 125–128): Possible Inconsistency (clinical arth expert ka; maasoom vyakhya: marij ke liye yeh values sweekarya ho sakti hain). "Monitored constantly" vs 4–8 ghante ke gap: Possible Inconsistency (maasoom vyakhya: CCU monitor continuous ho, chart periodic — monitor logs chahiye). 9 AM 12/3 (BP 87/46) ke baad agli entry 1 pm par — beech mein koi kaarvai ka record padhe gaye pages mein nahi.
- Round 3: AI-kagaz bhi "CCU stay mein sirf 2 BP entries" kehte hain (D-09 p.3; D-11 para 13) — yeh sahi nahi: C-9 Emergency ka chart hai (WS para 7) aur uski pehli entry subah 5 baje ki hai, CCU admission (10:10, Ann-10) se pehle; CCU chart (Ann-5) mein 12/3 raat 9 pm tak entries hain (W-27). Unka "CCU mein har ghante vitals" wala standard NOT VERIFIED hai — expert (EQ-8).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-076, EV-040, EV-054, EV-039, EV-081. Standard (ACS ke marij mein CCU mein monitoring ki frequency; in values par escalation): Benchmark NOT VERIFIED → EQ-1, EQ-8. Kanoon: CIT-02 NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "OP's own CCU vital chart records eleven entries over about 35 hours, with intervals of 4 h, 8 h, 4 h and 6 h between them, and records pulse 125–128 on 11.03.2026 and blood pressure 90/49 (6 pm, 11.03), 87/46 (9 am, 12.03) and 90/60 (9 pm, 12.03) (EV-076; OP Ann-5)." Yeh dalil di ja sakti hai ki WS ka "monitored constantly" aur "hemodynamic stability throughout" OP ke apne chart se samarthit nahi (Possible Inconsistency) — values ka arth expert batayega. "Monitoring nahi hui" na kahein; complaint ka "8:30 ke baad koi monitoring nahi" na dohraayein (W-27). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (PLAUSIBLE) "CCU mein continuous cardiac monitor tha; chart sirf periodic entries hain." → OP monitor logs/central station records pesh kare (missing_record_strategy); tab tak record jitna dikhata hai utna hi. | **RELIEF + SEEMA:** breach ka nishkarsh expert aur OP ke poore record par; akela yeh point negligence saabit nahi karta.

POINT 4: OP ka evidence ka mauka 07.08.2026 ko band — WS ke medical daave bina document ya affidavit ke

ELEMENT TAG: Procedural | **Taakat:** Moderate — orders TIER-A; kanooni asar NOT VERIFIED; hamara rejoinder bhi band hai

1. HAMARI BAAT / AAROP: Orders: 29.05.2026 "Let written version, alongwith evidence, on behalf of OP be filed within the prescribed period." (EV-002); 01.07.2026 "Evidence has not been filed. Be filed by the next date." (EV-003); 07.08.2026 "Evidence by OP not filed despite being provided sufficient opportunity. Hence the opportunity to file eviden[ce] by OP No.1 is closed" (EV-004) — SROT-SAMARTHIT TATHYA; procedural orders. WS ko "Authorised Representative, PGIMER" (Cardiology ke Professor, yaani ilaaj karne wala vibhag) ne 26.06.2026 ko verify kiya (WS p.12; EV-071).

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]**

[WS Location: WS p.1 PO-II; p.4 para 3; pp.5–6 paras 6, 8; p.6 para 10; p.7 para 12; p.12 verification — poore para padhe]: "The Opposite Party's Department of Cardiology has, in its Para-wise Comments submitted to the Medical Grievances Committee (in CC No. 423 of 2026), conclusively demonstrated that the clinical management ... was in full conformity with accepted medical practice" (PO-II); "(which is Hb < 7 g/dL per established guidelines)" (para 3); "As per the existing protocol at PGIMER, all cardiac patients are shifted to CCU and triaged according to clinical condition which was duly followed" (para 6); "As per the routine protocol at PGIMER, all patients are clinically assessed prior to shifting from CCU to the ward this was duly done." (para 10).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: RECORD SE SAMARTHIT NAHI — committee ke comments, PGIMER protocol, "established guidelines" — inmein se koi annex nahi (D-08 pp.13–25 padhe).
- Express Admission: LAGU NAHI — is point par.
- Express Denial / No Reply: LAGU NAHI — WS ne evidence band hone par kuch nahi kaha (WS order se pehle ka hai).
- Hamare record ka samarthan: EV-002, EV-003, EV-004; EV-005 ("Written arguments on behalf of OP have been filed").
- Virodhabhas: Unsupported Assertions (PO-II, paras 3, 6, 8, 10, 12, 15, 20-D) — Part B section 6 ki list dekho. Verifier khud ilaaj karne wale vibhag ka hai — independence ka sawal (expert_reports_on_record).
- Seema: order "OP No.1" kehta hai jabki memo mein ek hi OP (X-14).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-002–EV-005, EV-046, EV-052, EV-053, EV-056, EV-071. Kanoon: evidence band hone ka asar — CIT-18; bina evidence affidavit ke WS ke tathyon ka wazan — CIT-23 — LEGAL PROPOSITION, NOT VERIFIED [provision: advocate to confirm]. Procedural order OP ki admission nahi hai (core rule 25).

5. VAKIL KE LIYE ANTIM DALIL: "By order dated 07.08.2026 the Commission closed the OP's opportunity to file evidence, after directions on 29.05.2026 and 01.07.2026 (EV-002–EV-004). The OP's written statement relies on a Medical Grievances Committee's comments, an 'existing protocol at PGIMER' and 'established guidelines', none of which is annexed (D-08 pp.13–25)." Yeh dalil di ja sakti hai ki in daavon ke samarthan mein record par na document hai na affidavit — iska kanooni asar NOT VERIFIED (advocate check). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (PLAUSIBLE, forecast) "WS ke saath medical record ke annexures hain; complainant ne bhi rejoinder nahi diya." → annexures (Ann-3, Ann-5, Ann-6, Ann-7) kai jagah WS ke hi viparit hain (POINT 1, 2, 3, 14); dono paksh ke procedural tathya imaandari se saath rakhein (W-01). | **RELIEF + SEEMA:** OP ke bina-saboot daavon par kam wazan ki maang — kanoon verify hone tak sirf argument.

POINT 5: OP maanta hai — P ko CCU se shift kiya, ward bed nahi mila, P trolley par rahe

ELEMENT TAG: Breach | **Taakat:** Strong — Express Admission (WS paras 10, 11, 20-b); standard of care ka sawal expert ka (EQ-4)

1. HAMARI BAAT / AAROP: Complaint paras 10–13 (EV-016, EV-017): 12.03.2026 ki shaam "no bed was available in the CCU"; ward mein bed nahi; "placed on a stretcher on the 3rd floor near the staircase"; CCU duty doctor ne re-admit karne se mana kiya — CLIENT-REPORTED. OP ke apne kagaz: 12.03.2026 ko "Ward Cardio CCU", "Bed No. Trolly 66" (C-10, idx pp.56–57; EV-041, EV-042) — SROT-SAMARTHIT TATHYA. CCU admission 10:10:36 (EV-083) + "nearly 31 hours" (WS PO-VI) = 12.03.2026 ~17:10 (code se) — INFERENCE (shifting ka andaazan samay). Round 3 (CLIENT-REPORTED; D-09 p.6, D-10 p.1, D-11 para 16): "no bed available" kehkar bina naye assessment ke CCU se bahar; ward mein bhi bed nahi; stretcher 3rd floor par seedhiyon ke paas; koi transfer summary nahi — complaint paras 10–11 se MATCH; OP ka shifting note annex nahi (G-19).

2. VIRODHI (PGIMER) KA JAWAB [WS-MOOL-TEXT]

[WS Location: WS p.6 para 10; pp.6–7 para 11; p.7 paras 12, 14; p.9 paras 20-b, 20-c — poore para padhe]: "The patient was under constant monitoring by both nursing staff and doctors in the CCU prior to being shifted. As per the routine protocol at PGIMER, all patients are clinically assessed prior to shifting from CCU to the ward this was duly done." "Any delay in ward bed availability is a well known systemic constraint at PGIMER ... and cannot constitute negligence per se." (para 10); "It is admitted that there was a temporary delay in the availability of a ward bed due to PGIMER's extremely heavy patient load"; "Even on the trolley, the patient continued to be under the monitoring and care of PGIMER's medical team, as conclusively evidenced by the vital chart maintained by the nursing staff." (para 11); "The allegation that a Ward Doctor specifically advised the immediate re-shifting of the patient to the CCU is a completely false allegation." (para 12); "the patient was brought to the CCU only once at around 9pm on 12.03.26. We deny the fact that the patient was repeatedly sent back from the CCU." (para 14); "The patient was shifted from CCU to the ward only after adequate monitoring and clinical assessment. The temporary non-availability of a bed in the ward ... does not constitute 'abandonment.' The patient continued to be monitored even on the trolley." (20-b).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — shifting, trolley, ward bed ki deri RECORD SE SAMARTHIT (OP ki apni admission); "assessed prior to shifting" aur "monitored even on the trolley" RECORD SE SAMARTHIT NAHI.
- Express Admission: CCU se shifting (WS 10, 20-b); ward bed mein "temporary delay" (WS 11); P "on the trolley" (WS 11, 20-b); raat ~9 pm par P ko CCU "brought ... once" (WS 14).
- Express Denial: "abandoned"/"abandonment" (WS 11, 20-b); ward doctor ki CCU wapas bhejne ki salah (WS 12); "repeatedly sent back from the CCU" (WS 14); bed na milne ki soochna na dena (20-c).
- No Reply / Omission: shifting/transfer assessment ka koi note annex nahi (G-19); ward/trolley ka vital chart annex nahi (G-18).
- Hamare record ka samarthan: EV-041, EV-042 (trolley); OP ka apna Ann-3 diagnosis "CAD – USA (Wellen's pattern)" (EV-074).
- Virodhabhas: X-24 — "monitoring ... even on the trolley ... as conclusively evidenced by the vital chart" vs Ann-5 mein 12/3 raat 9 pm ke baad 12:15 tak koi entry nahi (Possible Inconsistency; maasoom vyakhya: alag trolley chart jo annex nahi). X-13 SULJHA: OP ke WS (paras 10, 11, 14, 18) aur Ann-5 ke mutabiq P CCU ke bahar collapse hue aur CCU mein mrit ghoshit hue — C-11 ka "ward No. CCU" ghoshna ki jagah hai.

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-056, EV-057, EV-058, EV-059, EV-065 (WS), EV-041, EV-042, EV-074, EV-076, EV-077, EV-083. Standard (Wellens/ACS ke marij ko CCU se trolley par shift karna; handover; observation): EQ-4. Bed ki kami ("systemic constraint") deficiency se bachav hai ya nahi: CIT-22, LEGAL PROPOSITION, NOT VERIFIED. Deficiency: CIT-02 NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "The OP admits that the patient, whom its own CCU had diagnosed with 'CAD – USA (Wellen's pattern)' (EV-074), was shifted out of the CCU and kept on a trolley because no ward bed was available (WS p.6, para 10; WS pp.6–7, para 11; WS p.9, para 20-b)." Yeh dalil di ja sakti hai ki bed ki kami hospital ki apni vyavastha hai, aur usse marij ke prati duty kam nahi hoti (CIT-22 NOT VERIFIED); OP ka "assessed prior to shifting" aur "monitored even on the trolley" uske annexed record se samarthit nahi (ladder step 2–3). Corridor/3rd floor ki sateek jagah abhi parivar ka bayan hai (Q-30). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (WS se) "Systemic constraint; negligence per se nahi; trolley par bhi monitoring hui." → OP ka apna chart trolley wale samay ki koi entry nahi dikhata (POINT 14); shifting note pesh nahi; standard expert batayega. | **RELIEF + SEEMA:** bed/handover/observation mein deficiency ka nishkarsh — RH-01 se juda.

POINT 6: Shaam/raat ki jaanch — OP ne CCU duty doctor ki jaanch mein sirf pulse, SpO2 aur auscultation likha; 12.03.2026 ki shaam ka koi dated ECG nahi

ELEMENT TAG: Breach | **Taakat:** Weak–Moderate — chest pain DISPUTED; 9 pm par BP recorded hai (hamara "no BP" sahi nahi, W-28); ECG ka sawal khula

1. HAMARI BAAT / AAROP: Complaint paras 12–14 (EV-017): stretcher par "acute and severe chest pain"; CCU doctor ka jawab "solely based on pulse oximeter readings"; "failed to conduct any further assessments such as blood pressure monitoring or ECG" — CLIENT-REPORTED. OP ke CCU proforma mein chest pain shuruati shikayat thi: "retrosternal chest pain × 1 day (11pm on 10/3/26)" (EV-073). OP ke annexed ECG (Ann-11, Ann-12) par tarikh, samay ya naam padhe nahi jaate (EV-084); C-7 ke ECG GMSH-16 ke hain (EV-035). 12/3 raat 9 pm ki CCU entry: 90/60, 82, 20 (EV-076). Round 3 (AI-kagaz D-09 pp.6–7, D-10 pp.1–2, D-11 paras 17–21; CLIENT-REPORTED): pehli baar CCU doctor ne kaha file ward mein chali gayi ("Your case is not with us ... Show him to the Ward doctor"); ward ki doctor ne dekh kar CCU le jaane ko kaha; doosri baar CCU doctor ne mana kiya ("His oxygen is perfectly fine. There is no emergency. Take him out."); kul "3 se 4 baar", ~9 PM se ~11:30 PM — ginti, samay aur shabd complaint mein nahi (X-34).

2. VIRODHI (PGIMER) KA JAWAB [WS-MOOL-TEXT] [WS Location: WS p.7 paras 12, 14; p.8 para 17; p.9 para 20-a — poore para padhe]: "The CCU Duty Doctor thoroughly examined the patient, pulse and oxygen saturation were checked and found to be within normal limits, with findings similar to those at initial admission to PGIMER, no tachycardia or tachypnoea" (para 12); "His primary complaint when he was brought back to CCU was of mild breathlessness ... His pulse, saturation was checked which were within normal limits. The patient was auscultated" (para 14); "after initiation of cardiac management, the patient did not complain of chest pain." (para 17); "The patient denied chest pain on multiple occasions during his CCU stay"; "ECG was repeated during his CCU stay and showed no ST elevations or dynamic changes." (20-a).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: JAANCH AVASHYAK — dated ECG nahi; "no tachycardia ... similar to ... initial admission" RECORD KE VIPARIT ho sakta hai (neeche X-23).
- Express Admission: CCU duty doctor ne pulse aur saturation dekhe, auscultation kiya (WS 12, 14).
- Express Denial: cardiac ilaaj ke baad chest pain (WS 17, 20-a).
- Omission: WS paras 12, 14 mein in encounters par ECG ka zikr nahi; 12.03 ki shaam ka koi dated ECG annex nahi (G-24).
- Hamare record ka samarthan: EV-073, EV-076, EV-084.
- Virodhabhas: X-23 — WS 12 "no tachycardia ... findings similar to those at initial admission" vs OP ka apna Ann-2 "Tachycardia", ECG "Rate: 123 bpm" aur C-8 "PR - 116/min" (Possible Inconsistency; WS ka bayan shaam ki jaanch ka hai, shuruat ka nahi — dhyan se). X-30 — shaam ko chest pain: client (para 12) vs OP (paras 14, 17) — DISPUTED.
- Round 3: OP khud ~9 pm ki CCU visit maanta hai (WS para 14) — AI-kagazon ka dar ("koi aaya hi nahin") record se door hai; vivaad sirf is par ki jaanch kya hui aur shikayat chest pain thi ya breathlessness. INFERENCE (ladder step 1–2): OP ka apna CCU diagnosis "CAD – USA (Wellen's pattern)" (Ann-3) uski file mein tha; sawal yeh hai ki 9 pm ki jaanch (OP ke shabdon mein pulse, saturation, auscultation) us diagnosis ke hisaab se kafi thi ya nahi — expert (EQ-15).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-017, EV-058, EV-059, EV-061, EV-064, EV-073, EV-076, EV-084. Standard: EQ-4, EQ-9. Kanoon: CIT-02 NOT VERIFIED. Round 3: EQ-15.

5. VAKIL KE LIYE ANTIM DALIL: Yeh dalil di ja sakti hai ki OP ke apne bayan ke mutabiq raat ko CCU duty doctor ki jaanch pulse, saturation aur auscultation tak simit thi (WS paras 12, 14), aur us shaam ka koi dated ECG record par nahi (ladder step 2). Complaint ka "no BP" 9 pm ke liye na kahein (Ann-5 mein 9 pm ka BP hai — W-28). Chest pain DISPUTED hai — ise tathya ki tarah na rakhein. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (WS se) "Shikayat mild breathlessness thi; pulse/SpO2 normal; chest pain nahi." → OP ke apne Ann-2 mein shuruati shikayat chest pain thi; dated ECG aur doctor ke notes maangna; expert. | **RELIEF + SEEMA:** RH-01 se juda; akele yeh point breach saabit nahi karta. Complaint se bahar ke naye tathya (3–4 chakkar, doctor ke shabd, samay) advocate ki raay ke bina Written Arguments mein na rakhein (Q-39, W-29).

POINT 7: Death certificate mein OP ne khud "Coronary Artery Disease" likha; aspiration ka aadhar (intubation finding) record par nahi; WS "secondary to Aspiration" kehta hai, certificate "Aspiration Pneumonia"

ELEMENT TAG: Causation | **Taakat:** Moderate (CAD ko apne paksh mein rakhne aur aspiration ke aadhar par sawal ke liye); maut ka samay ab vivaad nahi (12:51 AM)

1. HAMARI BAAT / AAROP: MCCD (C-11, PDF p.61; OP Ann-9, D-08 p.22; EV-044, EV-082 — ek hi document, ek hi lineage): "I (a) TYPE I RESPIRATORY FAILURE ... (b) ASPIRATION PNEUMONIA ... (c) CORONARY ARTERY DISEASE"; "II PULMONARY TUBERCULOSIS"; "Manner of Death: Natural"; "NOT WILLING FOR AUTOPSY" — SROT-SAMARTHIT TATHYA. Complaint para 19 aur ground F (EV-020, EV-021) poore cause ko nakaarti hai aur "deliberately recorded an incorrect cause of death to conceal" kehti hai — ALLEGED. Complaint para 18: maut "around 12:10–12:15 AM", certificate "incorrectly records ... 1:53 AM" (EV-019).

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]** **[WS Location: WS p.8 para 18; pp.8–9 para 19; p.10 para 20-F — poore para padhe]**: "The Medical Certificate of Cause of Death (MCCD form) clearly and correctly states the time of death as 12:51 AM. The nursing vital chart records that the patient was received at approximately 12:15 AM, following which 35 minutes of cardiopulmonary resuscitation (CPR) were administered placing the time of death at approximately 12:51 AM" (para 18); "'Type I Respiratory Failure, secondary to Aspiration' is based on clinical findings observed during endotracheal intubation at the time of attempted resuscitation, where particulate matter and fluids were visually identified in the trachea"; "Aspiration is not limited to the aspiration of solid food ... The patient was consuming water and prescribed medication" (para 19); "There was no manipulation of the death record." (20-F).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — samay 12:51 AM RECORD SE SAMARTHIT (Ann-5 nursing note "At 12:51"); intubation finding RECORD SE SAMARTHIT NAHI (koi resuscitation/intubation record annex nahi).
- Express Admission: P 12:15 AM par "received" hue aur 35 min CPR ke baad 12:51 par mrit (WS 18); certificate mein CAD (Documentary Support).
- Express Denial: death record mein manipulation (20-F).
- Omission: intubation/resuscitation ka record (G-20).
- Virodhabhas: X-26 — WS "secondary to Aspiration" (intubation ke waqt ki ghatna) vs MCCD "(b) ASPIRATION PNEUMONIA" (pneumonia = infection) — Possible Inconsistency; expert EQ-5. X-02 SULJHA: certificate ka samay 12:51 AM (OP ke TIER-A record se); parivar ka 00:10–00:15 = jab P unresponsive mile/laaye gaye (Ann-5 "Received in CCU at 12:15") — dono saath sahi ho sakte hain.
- Hamari kamzori: complaint ka "1:53 AM" padhna galat tha (W-23); C-6 mein "Nausea vomiting x 4 days" (W-09) — OP isi ka istemal karta hai (WS 19).
- Round 3: AI-kagaz (D-09 p.7, D-10 p.2, D-11 paras 25–26, 37–39) certificate ko "false", "fabricated", "tampering", "conspiracy" kehte hain aur "1:53 AM" se "do ghante ka gap" nikalte hain — yeh na uthayein: samay OP ke record se 12:51 tay hai (12:15 par CCU mein laaye gaye; X-02), certificate khud CAD likhta hai (EV-044), aur saboot ke bina aarop W-30 hai. Expert ke liye sahi sawal (EQ-14): intubation ke waqt trachea mein mila "particulate matter and fluids" (WS para 19) aspiration ko maut ka kaaran dikhata hai, ya cardiac arrest/CPR ke dauraan regurgitation ka nateeja ho sakta hai? Aur OP khud kehta hai ki ~9 pm par "no tachycardia or tachypnoea" thi, saturation normal (WS para 12) — "aspiration pneumonia" is tasveer se mel khata hai? Parivar ke kagaz resuscitation ko alag-alag likhte hain ("intubation" D-09; "central line insertion" D-11; "gardan mein tube" D-10) — resuscitation record (G-20) se hi tay hoga (X-26).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-044, EV-082, EV-062, EV-063, EV-066, EV-077, EV-032. Expert: EQ-5, EQ-6. "Concealment"/"manipulation" ka aarop language ladder ke step 5 ki teeno shartein poori nahi karta — na uthayein. Kanoon: CIT-02 NOT VERIFIED. Round 3: EQ-14.

5. VAKIL KE LIYE ANTIM DALIL: "OP's own Medical Certificate of Cause of Death lists 'Coronary Artery Disease' in the chain of causes (EV-044; C-11 / OP Ann-9), consistent with its CCU diagnosis 'CAD – USA (Wellen's pattern)' (EV-074)." Yeh dalil di ja sakti hai ki OP ka "aspiration" ka aadhar (intubation par mili cheez) record par nahi, aur WS ka "secondary to Aspiration" certificate ke "Aspiration Pneumonia" se alag hai (Possible Inconsistency) — expert ke saamne rakhein. Samay ka vivaad na uthayein (12:51 AM; W-23). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (WS se) "Intubation par aspiration dikha; parivar ne autopsy nahi karwayi; maut natural." → intubation/resuscitation record maangna (G-20); CAD wali entry apne paksh mein; expert. | **RELIEF + SEEMA:** causation ka nishkarsh expert ke bina nahi; yeh point dil ki bimari aur aspiration ke aadhar par sawal tak simit hai.

POINT 8: Causation — kami (deviation) aur maut ke beech ki kadi: ab sequence OP ke record se documented, par expert opinion zaroori

ELEMENT TAG: Causation | **Taakat:** Weak–Moderate — expert opinion nahi, autopsy nahi, kai purani bimariyan; par OP ke apne record se ghatnakram saaf hai

1. HAMARI BAAT / AAROP: Complaint para 21 (EV-022): OP ke "gross negligent acts and omissions ... directly resulted in the death" — ALLEGED. Round 2 ke baad OP ke apne record se ghatnakram: CCU diagnosis "CAD – USA (Wellen's pattern)" + "anaemia", plan "correct anaemia" (EV-074); Hb 7.5 (EV-078); blood "kept ready" par "never released or issued" (EV-079, EV-055); P CCU se trolley par (EV-056, EV-057); 9 pm ke baad koi vital entry nahi, 12:15 par "unresponsive & pulse was not palpable" (EV-076, EV-077); 12:51 mrit (EV-062) — har kadi apne label ke saath neeche table mein.

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]** **[WS Location: WS p.2 PO-IV; p.3 para 1; p.11 para 21 — poore para padhe]**: "the death of the patient is attributable entirely to the cumulative and progressive deterioration of these underlying conditions, involving multiple organ systems lungs (TB), liver (DILI), heart (CAD)" (PO-IV); "resulting in multi-organ dysfunction over several months" (para 1); "foreseeable consequence of ... multi-organ dysfunction" (para 21).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: JAANCH AVASHYAK — "entirely" ka koi expert ya autopsy aadhar annex nahi.
- Express Admission: CAD maut ke kaaranon mein (PO-IV; MCCD EV-044).
- Express Denial: negligence se maut (para 1).
- No Reply: LAGU NAHI.
- Virodhi ke counter-causes (hamare aur OP ke record se): PTB on ATT, T2DM, smoker, hyponatraemia, hypoalbuminaemia, ATT hepatitis/DILI, B/L pleural effusion, anaemia, troponin negative, aspiration (EV-025, EV-026, EV-030–EV-033, EV-037, EV-044, EV-048, EV-072).

4. KANOONI AADHAR AUR SABOOT: Causation chain (har kadi alag):

Kadi	Record kya dikhata hai	Status	OP ka counter-cause is kadi par	Kya tay karega
1	OP ne "CAD – USA (Wellen's pattern)" + anaemia maana, CCU mein rakha (EV-074, EV-083)	DOCUMENTED	Trop/TNI negative, BNP 37.4 (EV-072)	Cardiologist (EQ-1, EQ-9)
2	Plan "correct anaemia"; Hb 7.5; blood taiyar par issue nahi (EV-074, EV-078, EV-055, EV-079)	DOCUMENTED (non-issue ADMITTED)	Hb > 7; "standby"; parivar lene nahi aaya (EV-049, EV-079)	EQ-3; X-21
3	CCU se trolley par; 9 pm ke baad entry nahi (EV-057, EV-076)	ADMITTED (shifting) / RECORD GAP (observation)	"monitored even on the trolley" (EV-057)	Trolley chart (G-18); EQ-4, EQ-13
4	12:15 par unresponsive, pulse nahi; CPR; 12:51 mrit (EV-077, EV-062)	DOCUMENTED	Aspiration, purani bimariyan (EV-063, EV-048)	EQ-5, EQ-6
5	Kadi 2–3 ki kami se maut hui ya jaldi hui	UNKNOWN	Natural progression (PO-IV)	Expert (EQ-6, EQ-13); autopsy nahi hua

Sabse kamzor kadi: 5. Kanoon: causation ka standard — CIT-10, CIT-11 leads, NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: Yeh dalil di ja sakti hai ki OP ke apne record ka ghatnakram — cardiac diagnosis, "correct anaemia" ka plan jo poora nahi hua, CCU se trolley par shifting, aur 9 pm se 12:15 tak koi recorded observation nahi — maut se pehle ke ghanton ka hai (kadi 1–4, DOCUMENTED/ADMITTED). In kamiyon ne maut mein kitna yogdaan diya (kadi 5), yeh real expert batayega ("expert opinion required"); bura parinaam ya adhoora record dekh kar final negligence ka nishkarsh nahi maanga ja sakta (core rule 6). | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (WS se) "Maut entirely purani bimariyon se." → "entirely" ka koi expert aadhar record par nahi (OP ka evidence band, POINT 4); apportionment ka sawal expert se (EQ-6). | **RELIEF + SEEMA:** bina expert ke causation par nishkarsh nahi; RH-01 isi par tika hai.

POINT 9: Maut aur legal heirs; rakam ka daava

ELEMENT TAG: Damage | **Taakat:** Strong (maut documented) / Weak (rakam ke saboot)

1. HAMARI BAAT / AAROP: MCCD (EV-044, EV-082): "admitted in this hospital ... on 11-3-26 and expired on 13-3-26" — SROT-SAMARTHIT TATHYA. Memo of parties (EV-010): C1–C6 "All being the legal heirs of Sh. Manohar (since deceased)"; vakalatnama par chhahon ke naam aur number (EV-045). Para 21 (EV-022): P "small clothing shop" se kamata tha; "a sum of Rs. 60,00,000/- is claimed" — ALLEGED. Prayer (EV-023): Rs. 60,00,000 + 12% p.a.; Rs. 2,50,000; Rs. 1,00,000. Round 3 (CLIENT-REPORTED, AI-kagaz D-09 pp.13–15, D-10 pp.3–4, D-11 paras 2, 42–43; court record mein nahi): C1 akela beta; pita ji ki 15–16 saal purani chhatri/tirpal ki dukaan parivar ki akeli aay thi; ilaaj ke liye dukaan Rs. 80,000 mein bechi; C1 ab rehdi lagate hain; char behnein, sab shaadishuda, do ab parivar ke saath rehti hain (ek vidhwa; doosri ka kaaran [OMITTED — privacy]). Complaint se FARQ: "small clothing shop" aur "now entirely falls upon Complainant No.1" (para 21; X-35); "two daughters ... married, two children ... of marriageable age" (X-05).

2. VIRODHI (PGIMER) KA JAWAB [WS-MOOL-TEXT] [WS Location: WS p.3 PO-VII; p.11 para 21; pp.11–12 prayer — poore para padhe]: "The claim of compensation amounting to Rs. 60,00,000/- (Rupees Sixty Lakhs only) is emphatically denied" (PO-VII); "The sympathy and loss felt by the Complainants are acknowledged"; "The claim of Rs. 60,00,000/- (Rupees Sixty Lakhs) is wholly excessive, speculative, and unsupported by any documentary evidence of income or financial dependency." (para 21); prayer: "Award exemplary costs against the Complainants, in view of the frivolous, vexatious, and mala fide nature of the present complaint" (prayer ii).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — "income ka documentary evidence nahi" RECORD SE SAMARTHIT (hamare bundle mein aay ka koi kagaz nahi, G-09); "frivolous, vexatious" RECORD SE SAMARTHIT NAHI (OP ke apne kai documents hamare points ka samarthan karte hain).
- Express Admission: complainants ka nuksaan aur sympathy "acknowledged" (para 21) — dhyan: yeh liability ki admission nahi.
- Express Denial: Rs. 60,00,000 ka daava (PO-VII, para 21).
- No Reply: prayer (ii) Rs. 2,50,000 aur (iii) Rs. 1,00,000 par alag se jawab nahi; heirs/rishton par koi aapatti nahi.
- Seema: C4–C6 ka rishta (X-05), legal heir certificate (G-11), umar 55/60 (X-09; OP ke sab records 60 kehte hain — EV-036, EV-083).
- Round 3 kharche: AI-kagaz PGI par Rs. 6,388 (D-09, D-11) ya Rs. 6,438 (D-10) — Rs. 50 ka farq Apo A1/B receipt Rs. 225 vs Rs. 275 se (code) — aur Sector-16 par Rs. 15,534 (D-09, D-11) ya "lagbhag Rs. 3,000" (D-10) batate hain; record mein supported sirf Rs. 2,150 (X-36; RH-03). Rs. 2,50,000 ka dava in aankdon se bhi bahut upar hai — over-claim ka khatra (RH-03).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-044, EV-082, EV-010, EV-045, EV-022, EV-023, EV-043, EV-083, EV-069, EV-071. Kanoon: CIT-12, CIT-13, CIT-14 (OP ne inhe "admitted as settled law" kaha, WS 20-H; phir bhi official text se verify), CIT-16 — NOT VERIFIED. Rakam: Damages Ledger RH-01 se RH-05 (Part C).

5. VAKIL KE LIYE ANTIM DALIL: "The patient died at PGIMER on 13.03.2026 (EV-044); the complainants sue as his legal heirs (EV-010), and the OP does not dispute their standing." Harm DOCUMENTED. Rakam: claimed principal Rs. 63,50,000 + 12% p.a. byaj (EV-023; code se jod); documents se OP ko bhugtan Rs. 2,150 (EV-083, EV-043); aay aur dependency ke kagaz abhi nahi — SUPPORT NAHI. Koi rakam "milegi" ki tarah na likhein; yeh Commission ka vivek hai. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (WS se) "Excessive; income ka saboot nahi; exemplary costs do." → G-09–G-12 ke documents; claim aur supported alag dikhayein; unsupported aaropon ko chhod kar exemplary costs ka khatra kam karein (W-26). | **RELIEF + SEEMA:** RH-01–RH-05 (Part C); supported Rs. 2,150. Naye tathya (dukaan bechna, naye bills) Written Arguments mein tabhi jab advocate tay karein ki woh record par aa sakte hain (Q-39); varna complaint (para 21) wala version hi.

POINT 10: Consumer aur "service" — OP ke apne record mein Rs. 2,000 advance aur Rs. 150 POS; WS mein consumer status par koi aapatti nahi

ELEMENT TAG: Maintainability | **Taakat:** Strong (facts aur No Reply); kanoon NOT VERIFIED

1. HAMARI BAAT / AAROP: OP ka inpatient record cover: "Adv. Rs. 2000.00 Receipt No. [..]/1 Date: 11-Mar-2026" (OP Ann-10, D-08 p.23; EV-083) — SROT-SAMARTHIT TATHYA. PGIMER Test Receipt: "TOTAL AMOUNT 150.00", "POS/150 RUPEES", "CATEGORY : GENERAL", "12/03/2026 16:47:39" (C-10, idx p.58; EV-043) — SROT-SAMARTHIT TATHYA. Proforma: "Total Consideration Paid Rs. 2,50,000" (EV-008) — ALLEGED (bills nahi).

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]**

[WS Location: WS p.1 PO-I; p.3 para 2 — poore para padhe; WS pp.1–12 mein consumer status par koi aur para nahi]: "No deficiency in service, as defined under Section 2(11) of the Consumer Protection Act, 2019" (PO-I); "The invocation of jurisdiction ... is resisted, as the foundational condition for such jurisdiction i.e., a provable deficiency of service does not exist" (para 2).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: LAGU NAHI — OP ne consumer status ko chunauti hi nahi di.
- Express Admission: LAGU NAHI — seedhe shabdon mein nahi.
- Express Denial: sirf deficiency ka (PO-I, para 2).
- No Reply: consumer status, consideration, free service, pecuniary jurisdiction — kahin nahi (WS pp.1–12 padhe).
- Hamare record ka samarthan: EV-083 (Rs. 2,000), EV-043 (Rs. 150) — kul Rs. 2,150 OP ko (code se).
- Seema: GMSH-16 ka "Ayushman Bharat" billing (EV-025, EV-026, EV-030) GMSH-16 ka hai, OP ka nahi.
- Round 3: parivar ki suchi (D-09 p.8; D-10 p.4; D-11 annexure list) mein PGI ki aur receipts ka zikr hai — HbA1c Rs. 100, Apo A1/B Rs. 225/275 (11.03.2026); "PGI File Registration Rs. 2,000" = OP ka apna Ann-10 "Adv. Rs. 2000.00" (EV-083). Court record mein sirf Rs. 2,000 aur Rs. 150 (G-26). Consideration OP ke apne record se saabit hai; naye receipts sirf atirikt (lead).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-083, EV-043, EV-036, EV-008, EV-046, EV-051. Kanoon: CPA 2019 s.2(7), s.2(42) (CIT-01, CIT-02); *Indian Medical Association v. V.P. Shantha*, (1995) 6 SCC 651 (CIT-09); aapatti na uthane ka asar (CIT-20) — sab NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "The OP's own inpatient record shows an advance of Rs. 2,000 taken on admission on 11.03.2026 (EV-083; OP Ann-10), and its receipt shows Rs. 150 charged for cross-matching on 12.03.2026 (EV-043; C-10, idx p.58). The written statement raises no objection to the complainants' status as consumers." Yeh dalil di ja sakti hai ki seva bhugtan ke badle thi aur "service" ki paribhasha mein aati hai — kanoon NOT VERIFIED. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (forecast, PLAUSIBLE) arguments mein naya objection "sarkari sanstha, nominal charges". → OP ke apne Ann-10 aur C-10 receipts; WS mein yeh objection nahi (CIT-20). | **RELIEF + SEEMA:** maintainability bachaane ka point; jeet ka point nahi.

POINT 11: Jurisdiction aur limitation — OP ne limitation aur territorial jurisdiction "admitted" likha

ELEMENT TAG: Maintainability | **Taakat:** Strong — Express Admission; pecuniary par aapatti nahi; kanoon NOT VERIFIED

1. HAMARI BAAT / AAROP: Para 22 (EV-022): "the cause of action arose on 13.03.2026"; filing 07.04.2026 (EV-006, EV-007) — 25 din baad (code se). Para 23 (EV-022): C1–C3 Dhanas, Chandigarh; OP Sector 12, Chandigarh. Commission ne complaint "admitted for hearing" ki (EV-001).

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]** **[WS Location: WS p.11 paras 22, 23, 24 — poore para padhe]**: "The contents of Para 22 with regard to the date of the cause of action (13.03.2026) and the period of limitation are admitted." "The contents of Para 23 regarding territorial jurisdiction are admitted." "The contents of Para 24 are admitted to the knowledge of the Opposite Party."

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: RECORD SE SAMARTHIT (Consistent Record).
- Express Admission: cause of action ki tarikh, limitation, territorial jurisdiction (EV-070).
- Express Denial: LAGU NAHI.
- No Reply: pecuniary jurisdiction par koi aapatti nahi.

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-001, EV-006, EV-007, EV-022, EV-070. Kanoon: CPA 2019 s.34 (CIT-03), 2021 Jurisdiction Rules (CIT-04), s.69 (CIT-08) — LEGAL PROPOSITION, NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "The OP expressly admits the date of the cause of action (13.03.2026), limitation and territorial jurisdiction (WS p.11, paras 22–23)." Limitation: 25 din — SAFE (DL-07). Pecuniary: agar aadhar "consideration paid" hai (CIT-03, verify), to documented Rs. 2,150 ya stated Rs. 2,50,000 District Commission ki seema ke andar; OP ne yeh mudda uthaya hi nahi. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (forecast, SPECULATIVE) arguments mein "claim Rs. 50 lakh se zyada" ka naya mudda. → WS ki admissions aur s.34 ka official text. | **RELIEF + SEEMA:** maintainability ka bachaav; merits par koi nishkarsh nahi.

POINT 12: Records aur CCTV — prayer (iv) aur (v) par WS chup; OP ne kai records ka hawala diya par annex nahi kiye

ELEMENT TAG: Procedural | **Taakat:** Moderate (tactical) — records ki maang ka kram ab saaf list ke saath

1. HAMARI BAAT / AAROP: Prayer (iv): "the details of the doctors on duty in the CCU and the ward on 12.03.2026 and 13.03.2026 may be summoned"; prayer (v): "preserve all medical records ... along with the CCTV footage ... CCU unit, Ward and the 3rd Floor corridor ... 12.03.2026 to 13.03.2026 ... in a sealed cover" (EV-023) — SROT-SAMARTHIT TATHYA (jo maanga gaya). Orders D-02 se D-06 mein in par koi aadesh nahi (EV-001–EV-005).

2. VIRODHI (PGIMER) KA JAWAB **[WS-MOOL-TEXT]**

[WS Location: WS pp.1–12 poora padha; prayers (iv)/(v) par koi para nahi; hawale: p.1 PO-II; p.5 para 7; p.6 para 10; p.2 PO-IV; p.9 para 20-a]: OP ke WS mein records ke hawale jo annex nahi: "Para-wise Comments submitted to the Medical Grievances Committee" (PO-II); "The vital chart of the CCU as well as the Ward ... was duly maintained" (para 7); "all patients are clinically assessed prior to shifting ... this was duly done" (para 10); "The patient's relatives were repeatedly informed of his very poor overall prognosis" (PO-IV); angiography deferral "was communicated to the family" (20-a).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: RECORD SE SAMARTHIT NAHI — in hawalon ke documents D-08 mein nahi.
- Express Admission: LAGU NAHI.
- Express Denial: LAGU NAHI.
- No Reply: prayer (iv) (duty doctors ki details) aur (v) (records aur CCTV ka preservation/deposit) par koi jawab nahi.
- OP ne kya diya: Ann-1 se Ann-12 (selected pages). Kya nahi diya: G-17 (committee comments), G-18 (ward/trolley chart), G-19 (shifting/transfer note), G-20 (resuscitation/intubation record), G-21 (protocols), G-22 (counselling/consent notes), G-23 (echo aur radiology reports), G-24 (dated ECGs); inpatient file ka sirf cover (Ann-10); CCTV.
- Dhyan: C-10 slip par "Blood Requisition Details Modified successfully" likha hai (EV-042) — requisition ka modification history (audit log) maangna; isse koi aarop nahi banta.
- Round 3: duty roster aur call book (12.03.2026 raat; CCU aur ward) — CCU duty doctor aur ward doctor ki pehchaan ke liye (AI-kagazon ka point; G-25). Complaint ki prayer (iv) (duty doctors ki details) par OP chup (No Reply). AI-kagaz kehte hain 14.03.2026 ko MS office mein CCTV bachane ki zubaani maang hui aur 16.03.2026 ko daak se shikayatein gayi; user (30.10.2026) kehte hain koi kagaz nahi gaya (X-38) — likhit preservation request record par nahi (DL-08, W-31).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-023, EV-001–EV-005, EV-046, EV-048, EV-054, EV-056, EV-064, EV-083. Production/preservation direction ka procedure: NOT VERIFIED [provision: advocate to confirm]. Adverse inference sirf maang aur inkaar record par aane ke baad (missing_record_strategy step 5) — NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: Yeh dalil di ja sakti hai ki OP ne apne WS mein jin records par bharosa kiya (committee ke comments, ward chart, shifting assessment, counselling) unhe pesh nahi kiya, aur prayer (iv)–(v) ka jawab nahi diya; in records ki maang Commission ke saamne rakhi jaaye (POINT 12 ki list). Absence se tampering ya concealment ka aarop na lagayein. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (forecast, PLAUSIBLE) "Jo zaroori tha woh annex kar diya." → WS ke apne hawalon ki list (upar) aur OP ka evidence band (POINT 4). | **RELIEF + SEEMA:** production/preservation ki direction; yeh khud deficiency ka saboot nahi.

POINT 13: 45-din wala written statement point — CONDITIONAL

ELEMENT TAG: Procedural | **Taakat:** Weak — service report nahi; lead point nahi

1. HAMARI BAAT / AAROP: Order 22.04.2026 (EV-001): "file written statement within 30 days from the date of receipt of notice extendable for 15 days (total 45 days)"; 29.05.2026: "Vakalatnama on behalf of OP has been filed" (EV-002); WS "Dated: 26.06.2026", verified "on the 26th day of June, 2026" (WS p.12; EV-071); 01.07.2026: "Written version on behalf of OP filed" (EV-003) — SROT-SAMARTHIT TATHYA. Notice ki receipt date record mein nahi (G-03) — UNRESOLVED.

2. VIRODHI (PGIMER) KA JAWAB **[JAWAB UPLABDH NAHI — MOOL WS SE SATYAPAN AVASHYAK]**
[WS Location: WS pp.1–12 poora padha — notice ki receipt ya WS ki samay-seema par koi para nahi]

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: JAANCH AVASHYAK.
- LAGU NAHI — Express Admission, Express Denial aur No Reply: WS ne is mudde ko chhua hi nahi.
- Do tarikhen alag: WS par 26.06.2026; registry/order mein filing 01.07.2026 (READ_FIRST ke mutabiq 45 din court filing tak gine jaate hain — kanoon NOT VERIFIED).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-001, EV-002, EV-003, EV-071. Kanoon: CPA 2019 s.38 (30 + 15 din) (CIT-06) NOT VERIFIED; Supreme Court ka 45 din par sakht rukh (CIT-07, memory lead) NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: Ganana (code se, exclusion rule): filing 01.07.2026 ke aadhar par WS late tabhi jab notice 16.05.2026 ya pehle mila (inclusion: 17.05.2026); WS-tarikh 26.06.2026 ke aadhar par 11.05.2026 ya pehle (inclusion: 12.05.2026). OP ke vakil 29.05.2026 ko maujood the (EV-002). Service report ke bina yeh point sirf CONDITIONAL hai — ise lead point na banayein. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (forecast, PLAUSIBLE) "Notice der se mila; WS samay par tha." → service report (G-03). | **RELIEF + SEEMA:** WS ko record se hataane jaisi maang sirf tab, jab ganana aur kanoon dono verify hon.

POINT 14: 12/13.03.2026 ki raat — trolley par 9 pm ke baad koi vital entry nahi; 12:15 AM par P CCU mein "unresponsive & pulse was not palpable" laaye gaye; 12:51 AM par mrit ghoshit

ELEMENT TAG: Breach, Causation | **Taakat:** Strong–Moderate — OP ka apna nursing note + WS para 18 ki admission; note ke kuch shabd low-confidence; pehle pata chalne se parinaam badalta ya nahi = expert

1. HAMARI BAAT / AAROP: OP ke CCU vital chart ki aakhri regular entry: 12/3 "9 pm | 90/60 | 82 | 20" (OP Ann-5, D-08 p.17; EV-076). Usi chart par raat ka note: "pt Received in CCU at 12:15 ... Pt was unresponsive & pulse was not palpable. CPR started as per ACLS protocol ... Atropine 0.6 mg & [Adrenaline?] 1 mg IV given. At 12:51 ... Pt declared dead by on duty SR." (EV-077; mukhya shabd MODERATE confidence, baaki LOW) — SROT-SAMARTHIT TATHYA (confidence note ke saath). Interval 9 pm → 12:15 AM = 3 h 15 min (code se) — is beech Ann-5 mein koi entry nahi: RECORD GAP (ladder step 2). OP ke mutabiq is samay P CCU se bahar trolley par the (WS paras 10, 11, 14; EV-056, EV-057, EV-059). Complaint para 18 (EV-019): parivar ne ~12:10–12:15 AM P ko "unresponsive" paaya — CLIENT-REPORTED, OP ke note se mel khaata hai. Round 3 (CLIENT-REPORTED; AI-kagaz): P stretcher par baar-baar seene mein dard bata kar madad maang rahe the (D-10 p.3; D-11 para 41); collapse ke waqt maa saath thi (D-11, eyewitness list; complaint para 18 bhi maa ka hi zikr karti hai); C1 "bhaagkar" CCU pahunche (D-10 p.2; D-11 para 24) — C1 kab gaye aur kab lautey: X-37.

2. VIRODHI (PGIMER) KA JAWAB [WS-MOOL-TEXT] [WS Location: WS p.8 para 18; pp.6–7 para 11; p.9 para 20-b — poore para padhe]: "The nursing vital chart records that the patient was received at approximately 12:15 AM, following which 35 minutes of cardiopulmonary resuscitation (CPR) were administered placing the time of death at approximately 12:51 AM" (para 18); "Even on the trolley, the patient continued to be under the monitoring and care of PGIMER's medical team, as conclusively evidenced by the vital chart maintained by the nursing staff." (para 11); "The patient continued to be monitored even on the trolley." (20-b).

3. HAMARA JAWAB:

- Record ke hisaab se virodhi ki baat: AANSHIK — 12:15 par "received", CPR, 12:51 RECORD SE SAMARTHIT (Ann-5 note); "monitoring ... even on the trolley ... evidenced by the vital chart" RECORD SE SAMARTHIT NAHI (annexed chart mein 9 pm ke baad entry nahi).
- Express Admission: P 12:15 AM par CCU mein "received" hue; 35 min CPR; 12:51 AM mrit (WS 18; EV-062).
- Express Denial: LAGU NAHI — WS trolley par nigrani ka dava karta hai, inkaar nahi.
- Omission: trolley/ward ka koi vital chart ya nursing note annex nahi (G-18); P ko kisne, kahan, kis samay unresponsive paaya — WS mein nahi.
- Hamare record ka samarthan: EV-076, EV-077 (OP ka apna Ann-5); EV-019 (parivar ka samay).
- Virodhabhas: X-24 — "conclusively evidenced by the vital chart" vs chart mein 21:00 → 00:15 koi entry nahi (Possible Inconsistency; maasoom vyakhya: alag chart jo annex nahi).

4. KANOONI AADHAR AUR SABOOT: Saboot: EV-076, EV-077, EV-062, EV-057, EV-059, EV-065, EV-019. Standard (ACS ke marij ki trolley par nigrani ki frequency; kaun zimmedar): EQ-4, EQ-13. Kanoon: CIT-02 NOT VERIFIED.

5. VAKIL KE LIYE ANTIM DALIL: "OP's own nursing record states that the patient was received in the CCU at 12:15 AM on 13.03.2026, unresponsive and without a palpable pulse, and was declared dead at 12:51 AM after CPR (EV-077; OP Ann-5; WS p.8, para 18). The last vital-sign entry before that is at 9 pm on 12.03.2026 (EV-076): for 3 h 15 min the annexed chart records no observation, while, on the OP's own case, the patient lay on a trolley outside the CCU (WS paras 10–11)." Yeh dalil di ja sakti hai ki P ka cardiac arrest CCU ke bahar, trolley par, kisi recorded nigrani ke bina hua (RECORD GAP, step 2; shifting aur trolley Express Admission, step 4). "Monitoring nahi hui" ko tathya ki tarah na kahein; OP ke trolley/ward chart ki maang karein. | **VIRODHI KA SAMBHAVIT JAWAB AUR HAMARA UTTAR:** (RECORD-SUPPORTED ho sakta hai) "Trolley par nurse dekhti rahi; arrest achanak tha (CAD, PTB)." → aisi kisi entry ka record annex nahi (Omission); achanak arrest pehle pakda ja sakta tha ya nahi = expert (EQ-13). | **RELIEF + SEEMA:** observation mein deficiency ka nishkarsh — RH-01 se juda; causation expert ke saath.

8. EXPERT KE LIYE SAWAL

AI faisla nahi kar sakta; real expert ki rai zaroori. Expert advocate chunenge; conflict-of-interest check zaroori. Sawal neutral hain.

ID	Sawal (neutral)	Specialty	Expert ko kaunse records dekhne honge
EQ-1	C-8 aur OP Ann-2/Ann-3 ki entries (Wellens pattern, "CAD – USA", rate 123, BP 130/100, Hb 7.5–8.2, Trop/TNI negative) ke aadhar par, March 2026 mein ek tertiary public hospital ki CCU kis tarah ki aur kitni baar monitoring karti?	Cardiology (tertiary, CCU)	C-6, C-8, C-9; OP Ann-2, Ann-3, Ann-5, Ann-6, Ann-8, Ann-10
EQ-2	C-7 ke GMSH-16 ECG tracings (10.03.2026) mein woh pattern dikhta hai jise "Wellens" likha gaya?	Cardiology	C-7 ke original ECG

ID	Sawal (neutral)	Specialty	Expert ko kaunse records dekhne honge
EQ-3	ACS ke ilaaj par chal rahe is marij mein Hb 7.5 g/dL (11.03.2026) par PRBC transfusion indicated tha ya nahi, kis urgency se? CCU plan "correct anaemia" ka sahi arth kya hai? Transfusion na hone ka (agar) kya asar ho sakta tha?	Transfusion Medicine + Cardiology	C-7, C-8, C-10; OP Ann-3, Ann-6, Ann-7, Ann-8
EQ-4	"CAD – USA (Wellen's pattern)" wale marij ko ~31 ghante baad CCU se shift karke ward bed ke intezaar mein trolley par rakhna reasonable practice ke mutabiq tha? Shifting se pehle kaunsa assessment aur trolley par kaunsi nigrani apekshit thi?	Cardiology / Critical care	OP Ann-3, Ann-5, Ann-10; WS paras 10–14; shifting note (G-19)
EQ-5	Certified cause (I(a) Type I RF, (b) aspiration pneumonia, (c) CAD; II PTB) recorded course se mel khaata hai? Intubation par "particulate matter and fluids" (WS para 19) aspiration pneumonia ka aadhar ho sakta hai? Autopsy na hone ka asar?	Internal medicine / Forensic medicine	C-6, C-11; OP Ann-5 note, Ann-9; resuscitation record (G-20)
EQ-6	Purani bimariyon ke saath, kisi kami ka maut mein yogdaan alag kiya ja sakta hai? Samay par sahi care se kya hota (counterfactual)?	Cardiology + Internal medicine	Poora D-01 + D-08
EQ-7	Troponin negative Wellens pattern ke risk aakalan ko kitna badalta hai?	Cardiology	C-6, C-8; OP Ann-1, Ann-3
EQ-8	OP ke CCU chart (Ann-5) ke values — pulse 125–128 (11/3), BP 90/49 (6 pm 11/3), 87/46 aur pulse "45" (9 AM 12/3), 90/60 (9 pm 12/3) — is marij mein instability dikhate the jis par escalation ya doctor ki review apekshit thi?	Cardiology / Critical care	OP Ann-5 (original), Ann-8
EQ-9	OP Ann-2 ki ECG entry (rate 123, T changes V2–V4 "new onset") aur Ann-11/12 ki tracings kya dikhati hain? Ann-11/12 kab ki hain (machine time)?	Cardiology	OP Ann-2, Ann-11, Ann-12 (originals with machine time)
EQ-10	Point-of-care BNP 37.4 pg/mL (Ann-1) aur lab NT-proBNP 1117.48 pg/mL (C-3, 24.02.2026) ki aapas mein tulna ki ja sakti hai?	Cardiology / Laboratory medicine	C-3, OP Ann-1
EQ-11	Coronary angiography ko "deferred" karne ke diye gaye kaaran (WS 20-a) is setting mein reasonable the? Iske baad kaunsi nigrani apekshit thi?	Cardiology	OP Ann-2, Ann-3, Ann-6; WS 20-a
EQ-12	Drug chart ke "Inj. Lasix 40 mg stat f/b 20 mg IV BD" aur "IVF @ 30 ml/hr" orders is marij ki halat ke baare mein kya batate hain?	Cardiology	OP Ann-8, Ann-2
EQ-13	9 pm (12/3) se 12:15 AM (13/3) tak trolley par regular nigrani hoti to kya arrest pehle pakda ja sakta tha aur parinaam badal sakta tha?	Cardiology / Critical care	OP Ann-5; trolley/ward chart (G-18)
EQ-14	Intubation ke waqt (CPR ke dauraan) trachea mein "particulate matter and fluids" dikhna (WS para 19) aspiration ko arrest ka kaaran dikhata hai, ya cardiac arrest/CPR ke dauraan regurgitation ka nateeja ho sakta hai? OP ke apne bayan (WS para 12: ~9 pm par "no tachycardia or tachypnoea", saturation normal) ke saath "aspiration pneumonia" mel khata hai?	Internal medicine / Critical care / Forensic medicine	C-6, C-11; OP Ann-5 note, Ann-9; resuscitation record (G-20)
EQ-15	12.03.2026 raat ~9 pm ki CCU jaanch: OP ke apne diagnosis "CAD – USA (Wellen's pattern)" (Ann-3) wale marij mein, jiske parivar ke mutabiq seene mein dard tha (OP ke mutabiq "mild breathlessness"), ek reasonable CCU doctor kya karta (ECG, troponin, BP, dobara admission, senior ko bulana)? Kya pulse, saturation aur auscultation kafi the? Wellens pattern ka critical LAD stenosis aur heart attack ke khatre se rishta (AI-kagazon ka medical bayan, NOT VERIFIED) is marij par kitna lagu tha?	Cardiology (tertiary, CCU)	OP Ann-2, Ann-3, Ann-5; WS paras 12, 14; dated ECGs (G-24); duty roster (G-25)

Record par expert/committee report: WS PO-II Department of Cardiology ke "Para-wise Comments submitted to the Medical Grievances Committee" ka hawala deta hai — document annex nahi (G-17). Mile to test karein: kisne likha (ilaaj karne wala vibhag — independence), kaunse records dekhe, kya poocha gaya, kaunsa standard, aur kya deviation/harm/causation alag rakhe.

Poora Damages Calculation Ledger Part C mein. Kam/Base/Zyada scenario abhi nahi ban sakte: aay, umar aur dependants ka koi document nahi (LAGU NAHI — inputs nahi).

Round 3: AI-kagazon ke kharche (CLIENT-REPORTED; bills court record mein nahi): PGI Rs. 6,388 ya Rs. 6,438, Sector-16 Rs. 15,534 ya "lagbhag Rs. 3,000" (X-36). Supported abhi bhi Rs. 2,150 (RH-03). Dukaan bechne ki baat (Rs. 80,000) complaint se alag hai (X-35).

11. KANOON JO VAKIL KO VERIFY KARNA HAI

Is file ki saari 27 entries (CIT-01 se CIT-27) **NOT VERIFIED** hain — official sources is session mein network policy ki wajah se nahi khule (E-01). OP ne complaint ki teen judgments (CIT-12, CIT-13, CIT-14) ko "settled law" maana (WS 20-H) — yeh OP ki admission hai, verification nahi. Poori list Part C ke Citation Register mein. Koi final argument line kisi NOT VERIFIED authority par settled law ki tarah nahi tiki hai. Round 3: AI-kagazon se aaye leads (CIT-24 Parmanand Katara, CIT-25 Malay Kumar Ganguly, CIT-26 Martin F. D'Souza, CIT-27 doctors ka professional-conduct code) sirf limited proposition ke saath; unki BNS/criminal dharayein aur writ ki prayers is Consumer case ke points nahi (prompt rule 7).

12. HEARING NOTES (provisional — Round 6 mein final)

60-second pitch (English, for the advocate): "PGIMER's own CCU record diagnosed this patient with 'CAD – USA (Wellen's pattern)' and anaemia and planned to 'correct anaemia'; its own haemogram showed Hb 7.5. Blood was cross-matched and kept ready, yet the OP admits it was never issued, and its own doctor told the family there was no urgency. About 31 hours after admission the OP shifted him out of the CCU onto a trolley because no ward bed was free — that too is admitted. Its own chart records nothing after 9 pm; at 12:15 AM he was brought into the CCU unresponsive, without a pulse, and was declared dead at 12:51 AM. The question is whether this is the care PGIMER itself said he needed. [Expert opinion: ____ to be filled.]"

5-minute outline: (1) Maintainability admitted or unchallenged (POINT 10, 11). (2) OP's own diagnosis and admitted duty (POINT 1). (3) Blood: plan, Hb 7.5, cross-match, non-issue admitted (POINT 2). (4) Shifting to a trolley admitted (POINT 5). (5) No observation 9 pm → 12:15; received unresponsive (POINT 14). (6) Monitoring gaps and values vs "stable throughout" (POINT 3). (7) WS's medical assertions unsupported; evidence closed (POINT 4). (8) Death and cause, including CAD (POINT 7, 9). (9) Relief: claimed apart from supported.

Likely bench questions (sachche jawab):

- Post-mortem hua? — Nahi; C-11 par "NOT WILLING FOR AUTOPSY" (EV-044). [Kyun — Q-04: ____ to be filled]
- Maut kahan aur kab hui? — OP ke record ke mutabiq P 12:15 AM par CCU mein unresponsive laaye gaye aur 12:51 AM par mrit ghoshit hue (EV-077); us se pehle woh trolley par the (WS 10–11).
- Blood parivar ne kyun nahi uthaya? — [____ to be filled: Q-26, Q-27]; OP ke doctor ne kaha tha urgency nahi (WS 15).
- Koi expert opinion hai? — Record par nahi (W-03); OP ka bhi koi expert affidavit nahi (evidence band).
- Complaint mein 1:53 AM kyun likha? — Certificate ki copy ki padhai ki galti; record 12:51 AM kehta hai (W-23).
- Written Arguments kab file kiye? — [____ to be filled] (DL-05).
- Raat ko kitni baar CCU gaye? — Complaint (paras 12–14) do baar CCU jaane aur pulse-oximeter wali jaanch ki baat kehti hai; "3–4 baar" sirf purane AI-kagazon mein hai (X-34) — complaint se aage na jaayein. OP khud ~9 pm ki visit maanta hai (WS para 14).
- Kya parivar ne CCTV bachane ki koi likhit maang di? — [____ to be filled: Q-34, Q-35] (X-38).

Pehle dikhane wale teen exhibits: OP Ann-3 (D-08 p.15), OP Ann-5 (D-08 p.17), OP Ann-7 (D-08 pp.19–20). Saath mein C-8 aur C-10.

Cross-examination: LAGU NAHI — OP ka evidence band hai aur Consumer Commission matters zyada-tar affidavit/documents par chalte hain; advocate confirm karein.

13. AGLE DOCUMENT KE LIYE MATERIAL

Stage S6 (Arguments) — agla document: Written Arguments (material_for_written_arguments). **Material: PART A dekho** (issues bench ke kram mein; har issue ke POINTs; tathya aur documents; OP ke WS ke shabd aur hamara jawab (A6, A6a); relief ledger link ke saath; chronology). Rejoinder band hone ke kaaran WS ka para-wise jawab yahi section 6 aur A6a se lein.

Red flags: jo tathya ya document evidence mein nahi hai use na likhein; NOT VERIFIED authority ko settled law na kahein; complaint ki galtiyan (1:53 AM, "Complainant No.2", "no monitoring after 8:30") na dohraayein; OP ko jhootha na kahein (step 5 nahi).

14. AAPKE DRAFT KI JAANCH

Round 3: D-10 (Director/MS ko letter) aur D-11 (High Court writ) doosri jagahon ke liye bane AI-drafts the, Written Arguments ke draft nahi; user ke mutabiq kahin bheje ya file nahi hue. Unki jaanch draft_review ki tarah nahi, balki tathyon ke milaan (Part C, C10 aur C13) ke roop mein ki gayi. Written Arguments v4.1 aur v7.0 ki jaanch (draft_review) Round 5 aur Round 6 mein.

C3. Case State and State Reconciliation

CASE STATE | stage: S6 Arguments (Round 3 of 6 done) | forum status: ESTABLISHED (PR-01) | mode: UPDATE | last completed: Round 3 (VR-05) | open questions: Q-01–Q-13, Q-15, Q-26–Q-30, Q-34–Q-38 for the family; Q-17–Q-25, Q-31–Q-33, Q-39 advocate | next action: ROUND 4 (ZIP_4, earlier AI audit files v2.0 and v3.0) | urgent deadlines: DL-05 POSSIBLY EXPIRED, DL-08 DANGER, DL-06 22.12.2026 | state check: OK.

STATE RECONCILIATION (start of Round 3): AVAILABLE — Round 2 state visible (notes_round2.md, ROUND_LOG.md, VR-03 source and PDF; backup purane_round/round2/). NEW — ZIP_3 (D-09–D-11 + READ_FIRST). CHANGED — user's message of 30.10.2026: the court record is only the 9 listed files; every other file is AI-made and was never filed or sent; read every file fully for points. CONFLICTS — the prompt and READ_FIRST call ZIP_3 the client's papers (CLIENT-REPORTED); the user now calls them AI-made and unsent → treated as AI drafts carrying the family's account (TIER-C leads), with the letter NOT SENT and the writ NOT FILED. DECISION — proceed.

STATE RECONCILIATION (start of Round 2): AVAILABLE — Round 1 state visible (notes_round1.md, ROUND_LOG.md, VR-01 source and PDF); D-01 to D-07 on disk. NEW — D-08. CHANGED — none in the user's message (the user asked for the question list on GitHub and Round 2). CONFLICTS — none. DECISION — proceed.

X-02	Client: death "around 12:10–12:15 AM" (EV-019; CLIENT-REPORTED); complaint reads the certificate as "1:53 AM"	OP: "time of death as 12:51 AM" (WS p.8, para 18; EV-062); Ann-5 night note "At 12:51 ... declared dead" (EV-077); MCCD copy "1[?]:51", consistent with 12:51 (EV-044, EV-082) (TIER-A, OP)	The family's 12:10–12:15 matches the time OP's chart records P as "Received in CCU at 12:15" already unresponsive (EV-077), not the declared time. "1:53" was our misreading (W-23).	OP's own WS and chart (settled)	RESOLVED (death declared 12:51 AM; received unresponsive 12:15 AM)
X-03	Para 10: staff "informed the Complainant No.1 that no bed was available in the CCU" (EV-016)	Ground C: "the doctors never informed Complainant No.1 about the non-availability of beds or advised shifting the patient to another hospital" (EV-021)	May refer to different things (CCU bed vs ward bed/other hospital); reads as a contradiction	Client clarification (Q-11)	UNRESOLVED
X-04	Para 16: doctor said "no urgency for blood transfusion and that the same could be done later" (EV-018)	Ground E: "false assurance ... that no blood transfusion was required" (EV-021)	Paraphrase drift in our pleading. OP's WS para 15 matches para 16: the CCU duty doctor said "no immediate medical urgency for blood transfusion" (EV-060).	Use para 16 wording (OP's WS says the same)	RESOLVED (para 16 wording)
X-05	Memo: three married women C4–C6 as heirs (EV-010)	Para 21: "two daughters of the deceased are married, two children remain of marriageable age" (EV-022)	One of C4–C6 may not be a daughter, or para 21 miscounts. Version C (AI drafts D-10 p.4, D-11 para 43; CLIENT-REPORTED): "char bahanein ... sab ki shaadi ho chuki hai"; two of them now live with the family.	Q-05; legal heir certificate	NEEDS-USER

X-07	Para 4: on NT-proBNP "appropriate treatment and medication were prescribed" (EV-012)	C-4 DS: no cardiac diagnosis or cardiac drug written (EV-030; TIER-A)	Treatment may have been elsewhere; or overstatement	Client (Q-08 next round); GMSH full record	UNRESOLVED
X-08	Para 4: "more than ten times the higher reference range" (EV-012)	C-3: 1117.48 vs ref 0–114.5 = 9.76× (EV-029; computed)	Rounding/overstatement	Arithmetic on TIER-A report	RESOLVED (9.76×)
X-09	Age 55 (C-1, C-2; EV-025, EV-026)	Age 60 (C-3, C-4, C-5, C-6, C-8, C-10, C-11; OP Ann-6, Ann-8, Ann-10; Ann-9 is the same document as C-11); the AI drafts also say 60 (TIER-C, adds no weight)	Registration entries differ	DOB/Aadhaar (Q-09)	UNRESOLVED
X-10	Treatment sheet "Date 10/3/26" (EV-039)	Registration "11-03-2026 02:04" (EV-036); columns "11/3"	Night-time slip (innocent) or form carried over	OP's original EMOPD chart (not annexed in D-08)	UNRESOLVED (minor)
X-11	Print stamp "3/12/2026, 12:33 PM" (EV-041)	"Crossmatch Date and Time 12/03/2026 12:55" (EV-041); OP letter "around 12 p.m." (EV-079; X-20)	PC clock vs server clock; print of a pending entry	Blood bank system log	UNRESOLVED (clock note)
X-12	Slip: "within six hours of issue ... return ... if not transfused" (EV-042)	Form note: "Transfuse within two hours of issue from the Blood Bank" (EV-041); complaint para 8 attributes "six hours" to the form (EV-015)	Two different instructions (time outside storage vs return); our attribution error. The AI drafts quote the slip in full: "Kindly ensure transfusion of blood units within six hours of issue and return them to the Blood Bank, if not transfused" (D-11 para 14) — the six hours run from issue, which never happened.	OP's transfusion SOP (not annexed; G-21)	UNRESOLVED
X-13	Complaint paras 10–18: P moved out of CCU, on stretcher on 3rd floor near staircase, died there (EV-016–EV-019; CLIENT-REPORTED)	C-11: "died in the Hospital in ward No. CCU"; "Address at the time of death: CCU PGIMER" (EV-044; TIER-A)	OP's own WS and chart reconcile the two: shifted from the CCU and kept on the trolley awaiting a ward bed (WS paras 10, 11, 20-b; EV-056, EV-057, EV-065), brought to the CCU once around 9 pm (para 14; EV-059), "Received in CCU at 12:15" unresponsive, pulse not palpable, CPR, declared dead at 12:51 (Ann-5, EV-077; para 18, EV-062). Collapse outside the CCU; death declared in the CCU.	OP's WS + Ann-5 (TIER-A); exact place outside the CCU: Q-03, Q-30	RESOLVED (reconciled) / exact place ALLEGED

Blood bank system log	UNRESOLVED (minor)
X-21	Ann-7 letter dated 01.06.2026 (written on Cardiology's letter of 29.05.2026): "no attendant came to collect the same for the patient" (EV-079; OP's statement, after the event)	Complaint paras 15–16 (CLIENT-REPORTED): ward doctor said transfusion "upon bringing the blood"; ACC Blood Bank "closed at approximately 9:00 PM"; Nehru Hospital blood bank asked for a fresh crossmatch (EV-018). OP's WS para 15: CCU duty doctor told the family there was "no immediate medical urgency for blood transfusion" (EV-060)	Who was to collect, when, and whether the family was told the unit was ready. The slip says "Kindly bring Blood Transport Box from the ward at the time of issue of blood" (EV-042). Innocent readings exist on both sides.	Q-26, Q-27; ward nursing notes (G-18); transfusion protocol (G-21); issue register (blank, EV-080)	UNRESOLVED (MAJOR) — DISPUTED

X-23	WS para 12: at the ~9 pm encounter "pulse and oxygen saturation ... within normal limits, with findings similar to those at initial admission to PGIMER, no tachycardia or tachypnoea" (EV-058)	Initial admission: Ann-2 "Rate: 123 bpm", echo "Tachycardia" (EV-073); C-8 "PR - 116/min" (EV-037); Ann-5 pulse 125–128 on 11/3; pulse 82 at 9 pm on 12/3 (EV-076)	At 9 pm the recorded pulse (82) was not fast; but "similar to ... initial admission" does not match the admission record, which shows a fast rate. Innocent: loose wording.	Note of the 9 pm encounter (G-18); dated ECG (G-24)	UNRESOLVED (Possible Inconsistency)
X-24	WS para 11: "Even on the trolley" monitoring was done, "as conclusively evidenced by the vital chart" (EV-057)	Ann-5, the only chart annexed: last entry 12/3 9 pm; next writing "Received in CCU at 12:15" (EV-076, EV-077); no trolley or ward chart annexed	3 h 15 min with no entry in the pages read (code). Innocent: a ward or trolley chart exists but was not annexed (WS para 7 says the ward chart was "duly maintained").	Ward/trolley chart (G-18); EQ-13	UNRESOLVED (Possible Inconsistency; RECORD GAP)

C14. Correction Register

CR	Original	Corrected	Source	Impact
CR-01	Round 2 working note read the admission number on OP Ann-10 as "..1264"	Re-read at 7× zoom: "..12[0/6]4" (9th digit blurred, more like 0), consistent with C-11 "..1204"	D-08 p.23; D-01 p.61	None on any finding: the number was never used in the Vakil File; it settles X-33
CR-02	Round 2 Audit Trail Table listed X-04 and X-16 as OPEN	Both were marked RESOLVED in the Version A/B Register in Round 2 (X-04: para 16 wording; X-16: meaning of "available")	Part C, C10	Audit Trail row corrected; no finding changed

Round 2 (VR-03) ke kisi nishkarsh mein galti nahi mili. VR-01 ki STALE baatein Change Register (CH-09, CH-11, CH-13) mein hain.

C15. Change Register (round-wise)

CH	Round	Change and reason	Type
CH-01	1	File created (VR-01): cover, "Filing se pehle", Part A material, Part B POINTs 1–13, Part C registers.	Structure
CH-02	2	Cover: Round 2 of 6, VR-03; OP's prayer added; payments to OP Rs. 2,150; reading status D-08. Reason: D-08 read.	Fact / Structure
CH-03	2	New CASE IMPACT page (UPDATE rule).	Structure
CH-04	2	"Filing se pehle": items on 45 days (WS date 26.06.2026), rejoinder, evidence closed, time and place of death (now settled by OP's records), "no attendant came", heart-failure wording, OP's unannexed records. Reason: D-08.	Fact
CH-05	2	Part A rewritten: synopsis, WS date in procedural history, facts F-024–F-040, issue sufficiency, OP's words with WS location and our answers, new A6a (preliminary objections), checklist, OP annexures in documents list.	Fact / Legal / Structure
CH-06	2	Banner 13 → 14 POINTs; winning-points table re-ranked (POINT 5 rank 5 → 3; new POINT 14 rank 4; POINT 3 rank 3 → 5; POINTs 10, 11 up after admissions).	Structure
CH-07	2	POINT 1: OP Ann-2/Ann-3 diagnosis, duty and ACS treatment admitted, X-27, honest counterweight (BNP 37.4, normal LVEF).	Fact
CH-08	2	POINT 2: PGIMER Hb 7.5, plan "correct anaemia", Ann-7 letter and register, non-issue admitted, X-21, X-28; W-14 resolved.	Fact
CH-09	2	POINT 3 reframed. STALE from VR-01: "no BP entry after 8:30 AM on 11.03 until death" and the RECORD GAP of 39–44 h (computed from C-9 to the death) — the OP's CCU chart (Ann-5) has entries from 9:30 AM 11/3 to 9 pm 12/3. New framing: 4–8 h gaps and the recorded values (W-27).	Fact
CH-10	2	POINT 4: WS's unannexed medical claims listed.	Legal
CH-11	2	POINT 5: shifting and trolley now Express Admission. STALE from VR-01: X-13 as a MAJOR contradiction and W-05 (SERIOUS) — reconciled by WS paras 10–18 and Ann-5.	Fact
CH-12	2	POINT 6: WS paras 12, 14, 17; 9 pm BP exists (W-28); chest pain DISPUTED (X-30).	Fact
CH-13	2	POINT 7: time of death settled at 12:51 AM. STALE from VR-01: the candidate readings (12:51 / 1:51 / 1:53) and the intervals computed to 00:10/01:51/01:53; complaint's "1:53 AM" is our misreading (W-23).	Fact
CH-14	2	POINT 8: causation chain rebuilt from OP's records.	Fact
CH-15	2	POINT 9: WS para 21 and the exemplary-costs prayer.	Fact
CH-16	2	POINT 10: advance Rs. 2,000 (Ann-10); no objection in the WS.	Fact / Legal
CH-17	2	POINT 11: limitation and territorial jurisdiction expressly admitted.	Fact
CH-18	2	POINT 12: list of records the WS relies on but does not annex.	Fact
CH-19	2	POINT 13: WS date 26.06.2026 and both calculations.	Fact
CH-20	2	POINT 14 added (no entry 9 pm → 12:15 AM; received unresponsive).	Fact / Structure
CH-21	2	Sections 5–14: W-05, W-13, W-14 resolved; W-16 largely cured; W-23–W-28 added; section 6 AUDIT-OPP filled; gap graph rebuilt; EQ-8–EQ-13; records list; RAKAM supported Rs. 2,150; hearing notes.	Fact / Structure
CH-22	2	Part C: D-08 in Reading Log and Intake; PR-04; DL-01; timeline rows; EV-046–EV-084; Critical Value Ledger; X-18–X-30 (X-02, X-13, X-15 resolved); CIT-20–CIT-23; G-17–G-24; Q-26–Q-33.	Structure
CH-23	3	Cover: Round 3 of 6, VR-05; court record = the 9 files named by the user; DL-08 note; ZIP_3 reading status. Reason: ZIP_3 read; user's instruction of 30.10.2026.	Fact / Structure
CH-24	3	New CASE IMPACT (Round 3) page; the Round 2 CASE IMPACT kept as "pichhla round".	Structure
CH-25	3	"Filing se pehle": items 10, 13, 14 updated; new items 17–20 (AI drafts are not evidence; family-held bills; duty roster; the 14/16.03 complaints).	Fact

CH	Round	Change and reason	Type
CH-26	3	POINTs 1, 2, 3, 5, 6, 7, 9, 10, 12, 14: "Round 3" lines (matches, conflicts, rejected claims, EQ-14 and EQ-15). KUL POINTS unchanged at 14: no new independent point survived matching.	Fact
CH-27	3	Sections 5, 8, 9, 10, 11, 12, 14, 15: W-29–W-31; EQ-14, EQ-15; records G-25, G-26; expense note; law count 27; bench questions; draft-review note; Audit Trail (CR-02).	Fact / Structure
CH-28	3	Part C: D-09–D-11 in Reading Log and Intake (lineage L-05); PR-02 NOT FILED, PR-03 and PR-05 DISPUTED; DL-08 note; timeline F-041–F-045; ledger rows (admission number, expenses; Hb alternative); X-31–X-38 and updates to X-01, X-05, X-09, X-12, X-26; CIT-24–CIT-27; RH-01 and RH-03 notes; leads 2–3 closed and 7–17 added; CR-01, CR-02; G-25, G-26; Q-34–Q-39 and status of Q-02, Q-08–Q-16, Q-31.	Structure
CH-29	3	Part A: a Round 3 note only; no fact from D-09–D-11 added (prompt: no unmatched fact in Part A).	Structure

C19. Error Log

E	What was attempted	Failure type	Impact and downgrade
E-01	Open official legal texts (India Code, NCDRC, Consumer Affairs, e-Gazette, e-Jagriti, Supreme Court, DoCA) by direct download and by web fetch (two alternatives tried, then stopped)	NOT AVAILABLE (network policy: proxy 403 / host not resolved)	Every law and citation NOT VERIFIED (CIT-01–CIT-23); conditional wording used; all on the advocate's checklist. Fix: allow these domains in the environment's network settings. (Not retried in Rounds 2–3: nothing changed.)
E-02	Run the skill's own scripts (deadline_calc, interval_calc, ledger_total, ref_file_lint)	NOT AVAILABLE (blocked by the session's safety check for code from an external repository)	Dates, intervals and totals computed with separate Python date arithmetic and shown; structure checked by a separate lint (Compact Integrity Result).
E-03	OCR of the scanned bundles (D-01, D-08)	NOT AVAILABLE (no OCR engine installed)	Visual reading only; no second method for handwriting; low-confidence values marked (Critical Value Ledger).
